Forward-Looking Statements & Risks Acknowledgement

This document includes forward-looking statements. The forward-looking statements involve known and unknown risks and uncertainties, many of which are beyond the Company's control and all of which are based on the Company's current beliefs and expectations about future events. Forward-looking statements are sometimes identified as "expects", "may", "will", "could", "should", "shall", "risk", "intends", "estimates", "aims", "plans", "predicts", "continues", "assumes", "positioned", "anticipates", "is seeking", "growth", "targets", "forecasts" or the negative thereof, other variations thereon or comparable terminology.

These forward-looking statements include all matters that are not historical facts. They may appear in multiple places throughout the Pitchbook and include statements regarding the intentions, beliefs or current expectations of the Company concerning, among other things, the future results of operations, financial condition, prospects, growth, strategies, and dividend policy of the Company and the industry in which it operates. In particular, the statements in relation to risk factors and business background regarding the Company's strategy, targets and other future events or prospects are or may be forward-looking statements.

Forward-looking statements and other statements contained in this document regarding matters that are not historical facts involve predictions. No assurance can be given that such future results will be achieved; actual events or results may differ materially because of risks and uncertainties facing the Company. Such risks and uncertainties could cause actual results to vary materially from the future results indicated, expressed, or implied in such forward-looking statements. Such forward-looking statements contained in this document speak only as of the date of this document. Any obligation or undertaking to update any forward-looking statements contained in the document to reflect any change in their expectations or any change in events, conditions, or circumstances on which such statements are based is expressly disclaimed unless required by applicable law, rules and regulations.

Accordingly, undue reliance should not be placed on any of the forward-looking statements in this document. Statements contained herein as to the contents of any agreements or other documents are summaries and, therefore, are necessarily selective and incomplete.

The Presight Team Today

Thomas Pramotedham

Chief Executive Officer

- Technology and business leader with over 22 years of experience
- Held multiple CEO positions driving large-scale digital transformation
- Spearheads expansion of the company in Middle East, Central Asia and Africa

Ram Meyoor

Chief Financial Officer

- Over 25 years of finance experience across MENA, Asia and USA
- Holds MBA from Illinois State University, Illinois, USA
- Leads the company's finance department and is responsible for all financial functions including growth, governance, and compliance

Dr Adel Alsharji

Chief Operating Officer

- Responsible for company operations, with over 25 years of experience
- Expertise and in-depth knowledge of AML, auditing, and anti-corruption, focused on developing and delivering technology-driven financial AI products and solutions
- Previously worked in civil services and has a doctorate in business administration

Roger Tejwani

Senior Director, Investor Relations

- Over 25 years experience in Capital Markets across Investment Banking, Equity Research and Investor Relations
- Leads the company's Investor Relations program

Operational Highlights

Key Operational Highlights – Q3 2025

Disciplined strategic and financial execution power another quarter of solid growth

1

Accelerating our role as a trusted AI & digital transformation partner to UAE's federal and state-owned institutions

2

Sustained and profitable international growth – positioning as the region's foremost exporter of AI & digital services

3

Presight NewsPulse: AI-powered news intelligence engine with global reach through Microsoft Azure Marketplace

4

AI Startup Accelerator: Building a partnership ecosystem to scale impactful solutions from the UAE to the world

5

Presight-Shorooq Fund: \$100m fund to be deployed on AI investments globally

6

Strengthened regional presence in Kazakhstan, with new Jordan office to support local and regional expansion

Q3 2025 Operational Highlights

New Domestic Contracts & Agreements

- Abu Dhabi Department of Government Enablement (ADDGE)
- Abu Dhabi Department of Economic Development (ADDED)
- Abu Dhabi Police General Headquarters
- Abu Dhabi Civil Defence Authority (ADCDA)#
- UAE Ministry of Industry & Advanced Technology (MoIAT)#
- UAE Public Prosecution#
- Central Bank of UAE (CBUAE)
- Emirates Institute of Finance
- Khazna Data Centers#; Dubai Taxi Company PJSC#; ALPHA X*
- AIQ: Emirates Nuclear Energy Company (ENEC)#

New International Agreements & Partnerships

- Ministry of Industry and New Technologies - Tajikistan
- Ministry of Digital Development - Azerbaijan
- Ministry of Science and Education - Azerbaijan
- Nasser Centre for Science and Technology# - Bahrain
- Dow Jones Factiva
- AIQ: ADNOC & SPE
- AIQ: SLB
- AIQ: Waverity#

Turn News into Action with Real-Time Analytics

Presight NewsPulse is a UAE-grown GenAI-powered news analytics solution that transforms how organizations monitor, analyze, and respond to public news in real time. Built on Azure, it delivers continuous news tracking, automated reporting, and AI-driven insights. Powered by agentic workflows and Retrieval-Augmented Generation (RAG), it enables in-depth trend analysis, competitor benchmarking, and opportunity discover helping decision-makers stay ahead with clarity and speed.

Named Entity Recognition

Search and track individuals, companies, and organizations in news articles for deeper activity insights.

News Classification

Use PESTEL classification to organize and analyze news topics and trends.

Tracking Policy Updates

Track policy updates and regulatory changes across jurisdictions to align advocacy efforts.

Stay Ahead of Reputation Risks

Detect negative sentiments early to prevent crises and control media narratives.

Streamline Operations

Enhance media monitoring with AI-powered analysis, low latency, and instant reports.

Transform Data into Strategic Advantage

Access market trends and benchmark against competitors to drive strategic decisions.

International Playbook: Kazakhstan Regional Hub

Commitment to Kazakhstan's Digital Future

National Initiatives

Support AI, Smart City, & digital infrastructure efforts

Talent Development

Build local capacity & long-term innovation ecosystems

Startup Acceleration

AI Accelerator open to local startups

Venture Investment

Venture Capital fund open to scalable local ventures

From strategic agreements to on-the-ground implementation, a shared vision to accelerate digital transformation and unlock the full potential of AI

Expanding Strategic Cooperation

New Frontiers

Healthcare, energy, education, space research, oil & gas

Collaborative Innovation

Joint R&D / knowledge transfer for sovereign digital capabilities

M&A Opportunities

Integrating promising local tech into global platforms

AI Transformation of Samruk-Kazyna

Digital reinvention / intelligence across national assets

Advisory Board

Strategic guidance and oversight from highly recognized professionals

H.E. Mansoor Al Mansoori
Vice Chairman of the Board

Member of the Abu Dhabi Executive Council and Chairman of the Department of Health, CEO of G42 International and Director General of the UAE National Media Council, with extensive leadership experience spanning public and private sector.

Meng Xiong Kuok (MX)
Founder & Managing Partner

Singapore-based technology investor; Founder and CEO of K3 Ventures, backed 130+ companies globally — including Grab, ByteDance, Palantir, Advance Intelligence Group, and Wiz.ai — with a track record of 22 unicorns and 15 exits.

Jack Selby
Founder & Managing Partner

Technology and finance entrepreneur, Managing Director at Peter Thiel's family office, and Founder of AZ-VC, Arizona's largest venture capital firm. He previously served as SVP at PayPal and co-founded Clarium Capital Management, a macro hedge fund launched after PayPal's acquisition by eBay in 2002.

Financial Highlights

Key Financial Highlights – Q3 2025

Disciplined domestic execution and strong international expansion delivering sustained and profitable growth

1

Amplified growth rates across key metrics: Revenue ~6x PY; EBITDA ~2.5x PY; Organic PBT ~3x Q125 & Q225

2

Continued and strong organic growth: LFL revenue +14.2%, LFL EBITDA +37.2%, LFL PBT +27.0%, LFL PAT +16.8%¹

3

Revenue from international markets: ~4x increase YoY (46% of total); ~5x increase in 9M25 YoY (~33% of total)

4

Backlog: AED 3.7 billion at end September 2025 compared to AED 1.6 billion at September 2024

5

Robust balance sheet: AED 1.9 billion cash, no debt with significant headroom to fund (in)organic growth

6

FY 2025 growth in revenue, EBITDA, and PAT anticipated to be between mid-upper end of analyst expectations

¹ Applying a 15% corporate tax rate, or +27.0% growth applying the 9% tax rate prevailing in Q324

Q3 2025 Headline Financials

Strong international traction driving robust growth in organic revenue and record growth in organic EBITDA

Q&A

Appendix

The Big Picture

1

AI Expansion is Attracting Substantial Capital Investment

Multi-faceted strategic investment to shape global AI landscape, influence standards & secure economic leadership

- Computing infrastructure
- Research & Development
- Startup & industry support
- Ethics, safety, regulation

2

AI-driven Automation is Accelerating Across Critical Sectors

UAE & global governments accelerating AI adoption in governance, infrastructure, national security, efficiency & sustainability

- US: Stargate: ~\$500 billion by 2029
- EU: InvestAI: ~€200 billion; France: ~€110 billion
- UAE: MGX: ~\$100 billion; Stargate UAE; AI-Native Government

3

Delivering a Compounding Economic Impact

AI is projected to increase global GDP by 7% by 2030

- Global economic impact: ~\$16 trillion
- US: \$3.7 trillion annual impact by 2030

AI is projected to account for ~14% of UAE GDP by 2030

- UAE economic impact: ~\$100 billion

4

The Rise of Agentic AI (Autonomous AI Agents)

Agentic AI represents the next evolution in AI, where AI-powered agents exhibit agency with limited human intervention

- **Act autonomously:** planning, decision-making, problem-solving
- **Make decisions:** negotiate, collaborate, adjust behavior
- **Pursue goals:** align actions with long-term objectives

We are Presight

Presight (a G42 company), is a global Big Data Analytics company powered by Artificial Intelligence (AI)

Presight is at the forefront of enabling the use of advanced technology, allowing governments, enterprises, and institutions to harness the power of **Applied Intelligence** for better decision-making, enhanced efficiency, and long-term impact.

With a strong foundation in public services, energy & climate, finance, smart cities, and education, Presight is leading AI-driven transformation across industries and geographies.

With a global footprint spanning the UAE, Central Asia, Africa, and beyond, Presight continues to expand its market presence through strategic partnerships, major AI deployments, and industry defining innovations.

Global Collaborations / Partnerships / MOUs

Our collaborations and partnerships add value to the work we do, foster growth, and bring about positive societal impact across the world

Presight signed a MoU with Microsoft to support the Presight AI-Startup Accelerator and foster innovation in artificial intelligence development.

Presight signed an MoU with MBZUAI to support the Presight AI-Startup Accelerator and advance artificial intelligence research and development initiatives.

Presight signed an agreement with Masdar to develop an advanced asset management tool for renewable energy projects and operations around the globe.

Presight signed an MoU with NEC to integrate advanced flood monitoring capabilities into the Presight Emergency Response Management Platform using SAR technology.

Presight signed a Memorandum of Understanding with Viettel AI to promote cooperation and advance Applied AI and digital transformation initiatives in Vietnam.

Presight signed an MoU with Hitachi Digital Services to explore collaboration in smart city and cognitive city technologies for urban development.

Presight signed a strategic partnership with Nesma Injazat to spearhead and enhance digital transformation of government and businesses across Saudi Arabia.

Presight signed an MoU with Dell Technologies to leverage cutting-edge infrastructure solutions and accelerate artificial intelligence and big data adoption in the UAE

Presight signed a strategic cooperation agreement with Abu Dhabi Department of Energy to deliver premier AI and digital transformation solutions for the energy sector.

Presight signed a Memorandum of Understanding with Nawah Energy Company to enhance digital capabilities through cloud infra, 5G networks, and AI analytics.

Presight signed a partnership with Astana Hub to support emerging startups leveraging AI potential through resources, platform access, and networking opportunities.

Presight signed a Memorandum of Understanding with Colombia's Ministry of Science to promote cooperation and foster joint research and innovation projects.

Presight signed a landmark agreement with Kazakhstan's Ministry of Digital Development to develop a state-of-the-art AI supercomputer and data center cluster.

Presight signed a strategic MoU with Uganda's National Information Technology Authority to support the country's national digital transformation ambitions.

Presight signed a collaboration agreement with Intel to accelerate applied AI projects and develop cutting-edge artificial intelligence solutions in the Middle East region.

Presight signed a contract with UAE Media Council to develop the Unified Media AI and Analytics Platform for regulating and assessing media content.

Presight signed a Partnering Agreement with Maqta Gateway to jointly deliver cutting-edge AI-powered digitalized solutions for trade and logistics operations.

Presight signed a partnership with Obvious Technologies to revolutionize crisis, emergency, and disaster management through advanced analytics & AI integration.

Presight signed a Memorandum of Understanding with IDEMIA Smart Identity to jointly explore opportunities in secure identity solutions across Middle East and Africa.

Presight signed a partnership agreement with ISS to work together on transformative projects in Smart City and Safe City initiatives.

Presight signed a MOU with Dow Jones Factiva to co-develop nest-gen AI-native risk & compliance solutions for financial institutions, regulators and sovereigns.

Presight signed a partnership with ETCC to create a comprehensive workforce data platform integrating multiple datasets with advanced AI analytics capabilities.

Presight signed a strategic project contract with National Media Office to deploy artificial intelligence supporting narrative integrity and information governance initiatives.

Presight signed an MoU with Etihad Rail to explore and implement advanced digital solutions leveraging generative AI, smart transportation, and logistics technologies.

Presight signed a strategic partnership with EDGE Group's Beacon Red to advance AI-powered security solutions and enhance defense capabilities in the region.

Presight has signed an MoU with Swiss AI AG, a Switzerland-based company pioneering the seamless integration of human intelligence and advanced AI for future-ready decision-making.

Presight signed an MoU with DeepTech Engineering to integrate Seismic AI detection capabilities into the Presight Emergency Response Management Platform.

Presight signed a MOU with the EIF to explore the adoption of AI to enhance the integrity, security and operational efficiency of the UAE's financial system.

Innovation & Product Development

End-to-End Portfolio of trusted AI and Big Data Analytics Platforms and Solutions

Platforms

End-to-End Data & AI Platform

The card features a dark background with a glowing green and blue geometric pattern of lines and dots. A white circular icon with a stylized 'S' is centered at the top.

Secure GenAI Platform

The card shows a man in a light blue shirt and glasses holding a laptop, standing in a server room with blue lighting. A white circular icon with a stylized 'V' is centered at the top.

Unified AI & IoT Engine for Smart Cities

The card displays a futuristic cityscape with glowing buildings and data lines. A white circular icon with a hexagonal pattern is centered at the top.

Solutions

Unified Emergency Response

The card features a dark background with a glowing blue and white geometric pattern. A white circular icon with a stylized 'L' is centered at the top.

AI-Powered Investigation & Safety

The card shows a person's face in profile, looking at a glowing blue and white digital interface. A white circular icon with a stylized 'A' is centered at the top.

No-Code Report Engine

The card features a dark background with a glowing blue and white geometric pattern. A white circular icon with a stylized 'R' is centered at the top.

Enterprise Data Monetization

The card shows a dark background with glowing blue and white data lines and cubes. A white circular icon with a stylized 'D' is centered at the top.

News Analytics

The card features a dark background with a glowing blue and white geometric pattern. A white circular icon with a stylized 'N' is centered at the top.

Avatar based Assistant

The card shows a woman's face in profile, looking at a glowing blue and white digital interface. A white circular icon with a stylized 'P' is centered at the top.

Financial Framework

Financial Dashboard: 2021-2024

¹ Cash / Current Liabilities

KPI Dashboard: 2021-2024

¹ Revenue from Backlog implies revenues from contracts concluded in prior financial years ² Revenue from Quick turn implies revenues from contracts concluded in the current financial year ³ Backlog implies revenues yet to be accrued on contracts concluded in prior periods

Financial / KPI Dashboard: Q225 and H125

¹ Revenue from Backlog implies revenues from contracts concluded in prior financial years ² Revenue from Quick turn implies revenues from contracts concluded in the current financial year

Medium-Term Guidance

	2021- 2023	2023 - 2027 Guidance
	+15.5% CAGR	+21% - 27% 4-YEAR CAGR
Sectoral Revenue Composition		 <ul style="list-style-type: none"> Public services remains largest contributor Higher revenue CAGR vs history driven by expansion into new sectors Energy & Utilities sectors as key growth enablers >90% of forecast revenue growth anticipated from multi-year contracts
EBITDA CAGR	+14.8%	+17% - 22% 4-YEAR CAGR <i>Implied EBITDA margin 25%-30%</i> Geographical mix and solutions profile will determine where margins stabilize
Net Profit CAGR*	+27.5% (No CIT impact)	+7% - 12% 4-YEAR CAGR Assumes 15% UAE CIT rate from January 2025 <i>(Implies +12% - 17% 4-YEAR CAGR under previous 9% UAE CIT rate)</i>

* 100% Group profit including minorities

Why Presight Leads

1	Strategic Government backing & mandate for international expansion	<ul style="list-style-type: none">• Beneficiary of UAE's leadership, vision, and commitment to AI adoption• Strategic Government backing as enabler of digital transformation across emerging markets• Access to AI infrastructure that seamlessly integrates with sovereign/enterprise ecosystems• Global technology partnerships to accelerate AI adoption globally
2	Technological advantage & focused AI innovation	<ul style="list-style-type: none">• National-scale, mission-critical programs to shape economies & empower societies• Homegrown AI ecosystem ensures adaptability, security, & efficiency• Models developed & trained on industrial scale, enhancing predictive analytics & automation• Adaptive, all-source data platforms for high-load AI applications
3	Proven mission-critical technology with long-term benefits	<ul style="list-style-type: none">• Trusted B2G relationships based on proven ability to deliver mission critical deployments• Bespoke technology stacks that support faster, lower-cost AI adoption• Deeply embedded solutions integral to economic modernization & governance• Full lifecycle AI solutions for perpetual value creation and high renewal rates
4	Highly scalable and capital-efficient business model	<ul style="list-style-type: none">• Large addressable markets with structural demand drivers & significant TAM• Solutions that address key challenges in emerging markets• Cloud-based solutions for flexible integration - legacy infrastructure or sovereign ecosystems• Capex-light deployment model & robust controls facilitate low-risk international expansion
5	Industry-leading economics & financial resilience	<ul style="list-style-type: none">• Dependable revenues & cash flows with growing backlog & multi-year contracts• Consistent & strong profitability• Robust, debt-free balance sheet to fuel future organic & inorganic growth• Strong medium-term revenue and profit CAGR trajectory

End-to-End Data & AI Platform

Presight Synergy consolidates data management, AI analytics, and business intelligence. Built on a modern, modular architecture and powered by Generative AI, it enables organizations to securely transform, analyze, and visualize data within a single, scalable platform.

Synergy Data

Key Features

-  Unify, cleanse, and govern all your data sources in one place, data profiling, data catalog management
-  AI-assisted data pipelines, data lakehouse integration, federated query, graphical data exploration tools

Synergy AI

Key Features

-  LLM integrated, generative AI embedded capabilities, agentic AI framework to build AI agents seamlessly
-  +150 AI/ML model registry to utilize for different use cases such as computer vision and natural language processing

Synergy BI

Key Features

-  Built-in BI analytics tool, AI-powered rule engine, interactive and customizable dashboards, alerts & scheduled tasks
-  Global search, mass profiling, graph knowledge, geo analysis, geo coding, report management, rule engine analytical tool

Security and Governance

Team collaboration tool, personalized home dashboard, hierarchical content organization, content sharing, activity log tracker, notifications management

Fine-grained ACL for all users, row level access control, classification-based access, audit trail, real time operational and performance statistics

Platform monitoring dashboards, data ingestion monitoring dashboards, query execution transparency, Keycloak-enabled, OAuth and SSO authentication

Secure GenAI Platform

Presight Vitruvian Presight Vitruvian is an enterprise-grade Generative AI platform designed to meet the unique needs of corporate and government organizations. Vitruvian empowers users to seamlessly generate content, analyze vast data sets, and automate workflows. By leveraging a template-based architecture, the platform tailors its AI capabilities to specific use, all while maintaining strict confidentiality and compliance standards.

Industry-Disruptive Generative AI

- Transforms traditional manual processes into truly AI driven workflows
- Conversational and Context-aware. Supports both English and Arabic languages

Enhanced Usability & Accessibility

- Uses industry-specific terminologies over technical jargon.
- Supports natural language interaction, voice capabilities, and native handling of multimedia.
- Enables documents writing & summarization, knowledge management, data analysis and visualization, content processing and advanced report generation.

Robust Knowledge Management & Data Analytics

- Vitruvian searches from Internal/External data sources, uploaded files, and/or the internet to retrieve results.
- AI-driven search and analytics enable instant answers from complex data.
- Advanced Retrieval-Augmented Generation (RAG) extracts precise, context-aware insights from structured and unstructured data.

Template-based Architecture

- Quickly customize AI “assistants” (e.g., Investigation Assistant, AI Employee, Legal Assistant) for specific business functions.
- **Agentic AI Workflow:** Automates tasks and decisions, freeing teams to focus on strategic initiatives.

Secure and Compliant

- Air gapped deployments ensures security, controls and data isolation capabilities, allowing enterprises to manage functional permissions and data access for different departments separately

Versatile Integration and API Support

- Seamless integration with any application, content processing, and enterprise analytics.
- Supports multiple databases like SQL, OpenSearch, MongoDB, etc. and multiple LLMs (Llama, Mistral, JAIS, and more)

Unified AI & IoT Engine for Smart Cities

Presight Intelli Platform is an AI-powered, integrated urban intelligence solution that unifies data from IoT devices, video feeds, and external systems to enable smarter, safer, and more efficient cities. It provides municipalities with capabilities to monitor, predict, and optimize city operations, resource utilization, public safety, and infrastructure health across multiple sectors.

Seamless Data Aggregation & Integration

- Connects and collects data from a broad spectrum of IoT devices, protocols, and real-time video streams
- Integrates with sensors, edge devices, digital twins, and external systems

Advanced Capabilities for Intelligent Operations

- Dashboards and Command and Control Center for real time visualization
- Automation via robust rule engines that enables event & alert management, Supports cloud and air-gapped deployment, ensuring security, scalability, and compliance

Smart City-Ready Architecture

- Powers diverse use cases and applications: Traffic & Road, City Management, Energy, Environment & Climate Monitoring, Public Safety, Asset Management, and more
- Modular architecture, easily customizable and integrable with external systems.
- Scales horizontally for large-scale IoT implementations

With Presight Intelli, cities unlock a resilient, AI-enabled digital infrastructure to optimize operations, ensure safety, and enhance citizens' quality of life.

Unified Emergency Response

Presight LifeSaver is an AI-powered, end-to-end emergency management platform designed to deliver rapid response and efficient recovery. By breaking down silos between fire services, police, emergency call centers, ambulance operations, public agencies, cyber units, volunteers, and the community, Presight LifeSaver fosters a truly integrated and proactive approach to accidents and crisis management.

presight
AI-Policing Suite

Accelerating Investigations & Enhancing Safety

Presight AI-Policing Suite is a home-grown cutting-edge modular solution engineered to transform public safety and law enforcement operations through the strategic use of Generative AI (GenAI), AI Agents, Computer Vision models, and advanced data analytics. Designed for smart cities and national law enforcement agencies, the suite enables faster investigations, smarter digital forensic analysis, safer roads and public communities, and unified command operations.

Main Modules

Law Enforcement Platform

A unified, AI-powered crime investigation platform

Detective Assistant

A transformative technology designed to function as an intelligent digital detective

Digital Forensic Platform

Accelerates digital forensic investigation process

Traffic Control

Enables real-time violation & incident detection

Video & IoT Analytics

Provides real-time analytics, anomaly detection, and situational awareness across urban and public place environments

No-Code Report Engine

Presight Report Optimizer (PRO) enables organizations to generate comprehensive reports through no-code, AI-driven workflows. By integrating diverse data sources and automating scheduling, PRO delivers immediate insights for sharper decision-making.

Data Ingestion

Collect data from various sources, including web data, social media, subscription-based content, and enterprise data sources.

Data Analysis

Use generative AI and LLMs to analyze the data, performing traditional data analytics, timelines, trending analysis, sentiment analysis, risk assessment, prediction, and recommendations.

Report Generation

Use the no-code, drag-and-drop interface to create reports with natural language processing, refining content with simple English commands.

Final Report

Produce polished, comprehensive reports in multiple formats, ready for presentations and strategic decision-making.

Enterprise Data Monetization

Presight DataHub is an enterprise data marketplace that democratizes and monetizes data. It enables organizations to share data internally, externally, and generate revenue through data monetization. Deployed on Microsoft Azure, it ensures data sovereignty and security while promoting data-driven decision-making.

Intuitive Marketplace

An intuitive user interface that simplifies the discovery and access of data products. This streamlined process significantly enhances data discovery and access reducing time and effort while improving user experience.

Advanced Analytics, Querying and AI-Driven SQL Builder

The platform empowers users with robust tools for SQL and natural language querying, making data analysis accessible to users across various skill levels. This feature ensures that all users can effectively leverage data to support decision-making processes.

Secure Collaboration Tools

Secure environments, such as sandboxes and workbenches, where users can safely collaborate on data projects. These tools allow users to evaluate, transform and combine data products and build new data products.

Governed Access Control

Governed access control, allowing organizations to regulate the access and usage of data at scale. It supports self-service, permissioned and provisioned options, ensuring that only authorized users can access specific data products or features.

Seamless Integration

Integrates with existing systems and data sources, ensuring flexibility, security, and compliance while minimizing adoption disruptions. Its interoperability maximizes the value of existing data infrastructure, allowing organizations to distribute data pipelines efficiently without physically relocating them.

DISCOVER

ACCESS

CUSTOMIZE

ANALYZE

SHARE

Turn News into Action with Real-Time Analytics

Presight NewsPulse is a UAE-grown GenAI-powered news analytics solution that transforms how organizations monitor, analyze, and respond to public news in real time. Built on Azure, it delivers continuous news tracking, automated reporting, and AI-driven insights. Powered by agentic workflows and Retrieval-Augmented Generation (RAG), it enables in-depth trend analysis, competitor benchmarking, and opportunity discover helping decision-makers stay ahead with clarity and speed.

Named Entity Recognition

Search and track individuals, companies, and organizations in news articles for deeper activity insights.

News Classification

Use PESTEL classification to organize and analyze news topics and trends.

Tracking Policy Updates

Track policy updates and regulatory changes across jurisdictions to align advocacy efforts.

Stay Ahead of Reputation Risks

Detect negative sentiments early to prevent crises and control media narratives.

Streamline Operations

Enhance media monitoring with AI-powered analysis, low latency, and instant reports.

Transform Data into Strategic Advantage

Access market trends and benchmark against competitors to drive strategic decisions.

Your Personalized AI Avatar for Smarter Interaction

Presight Persona is a digital avatar-based assistant powered by GenAI, designed to transform how users interact with information and workflows. It can understand context, interpret both text and voice inputs, and generate human-like responses with remarkable fluency. From data retrieval and summarization to insight generation and decision support – it makes a powerful tool for enhancing and streamlining communications. For business or public-sector environments, Presight Persona enables more intuitive user experiences.

Key Features

Large Language Models Support

Natural Language processing and Speech Synthesis

Real-time Conversations

Personalized Avatars and Behaviour

Enterprise-Specific Secure Knowledge Base

Multi Language Support

Enterprise Implementation

Internal (Employees) OR External (Customers) Support

Training and Onboarding

Data Analysis and Visualization

Digital Assistant

Multiple Digital Human Experts in a Metaverse Environment

Streamline Workflow Automation

Use Cases

Expo 2020 Dubai

Provision of AI-enabled Visitor Management technology for EXPO 2020 monitoring over 100,000+ daily visitors and 6,500+ daily vehicles

AI analytics & alerts within milliseconds

Track and trace

Identify and prevent thousands of incidents

Systems

Video Analytics

Screening Services

Vehicle Access Management

Use Case

A cloud-based video analytics platform that utilized advanced AI to provide real-time insights and situation analysis and connect with operations and security teams

Utilized x-rays tray return systems, metal detectors and electronic trace detectors to prevent entry of forbidden items

Secured all entry and exit points through VAM, utilizing intelligent automation and management of car access and parking operations

Threat AI-alert dashboard, tracking alarms and associated actions

- 12,000 CCTV cameras covering an area of 4.38 square kilometers
- 240 License Plate Recognition Devices
- 158 Auto Arm Barriers
- 78 Driver ID Devices
- 2,400 Tracking Devices
- 137 Metal Detectors
- 130 X-ray Machines
- 4 E-tracer Detectors

Lifesaver

A GenAI-powered emergency response management platform

Abu Dhabi Accountability Authority (ADAA)

Supported ADAA with multiple AI platforms to achieve their objective of driving accountability, transparency, and integrity across Abu Dhabi government entities

10x efficiency

Audit execution cycle reduced by 10x e.g., process visualization from data ingestion to dashboard reduced from 15 days to 1.5 days

Comprehensiveness

Typical audit samples are less than 1% of all records, AI models enable auditing of 100% of records

Systems

Use Case

	AI Audit	Anti- corruption	Financial Disclosure System
Systems			
Use Case	Ran end-to-end artificial intelligence audits of over 100 use cases across HR, procurement, and finance across 30+ entities	Ran conflict of interest big data models to detect a variety of conflict-of- interest use cases (e.g., related party financial transactions and family member hiring)	Supported the platform to set a clear foundation for institutional transparency by recording self-disclosed data for 1,500+ government seniors across 11 data categories (job, family, bank, and others)

AI audit summary output with a consolidated entity score

Anti-corruption investigation network-analysis dashboard

Our Markets

Our Markets

CORE

EMERGING

Public Services

WHAT WE DO

We revolutionize public services and government operations with GenAI-powered big data analytics

WHY WE DO IT

To enable public agencies to improve citizen service offerings, define data-driven policies, enhance public safety, and enable digital identity management

OUR IMPACT

So that people can have better citizen experiences and live better lives

Energy & Utilities

WHAT WE DO

We develop advanced AI solutions for the Energy sector and mitigate the environmental impact of business operations

WHY WE DO IT

To provide comprehensive AI-based tools and insights that enhance operation efficiency, reduce environmental impact, and support effective decision-making

OUR IMPACT

So that we can boost operational efficiency, sustainability, and data-driven decision making

Finance

WHAT WE DO

Our solutions help detect financial irregularities, fraud, and risks precisely through GenAI-driven big data analytics

WHY WE DO IT

To equip regulators and companies with tools to detect and address financial anomalies, analyze trends, and run audits

OUR IMPACT

So that financial risk can be managed, allowing people and organizations to be at peace

Smart Cities

WHAT WE DO

Our comprehensive solutions revolutionize how cities are managed.

WHY WE DO IT

To enable authorities with the capabilities to enhance city resource management, leverage IOT and sensors to improve community services

OUR IMPACT

So that urban life becomes an enabler for advancement without taxing the environment

Education

WHAT WE DO

Transform educational outcomes by using big data analytics powered by AI

WHY WE DO IT

To equip authorities and institutions with data-driven tools to enhance student learning successes, identify student talents, and optimize learning programs

OUR IMPACT

So that students can learn better and contribute more quickly and effectively to economic and societal progress

Public Services

We enhance public services and optimize government efficiencies through big data analytics powered by GenAI. Our mission critical and proven GenAI solutions enable public agencies to improve citizen service offerings, define data-driven policies, enhance public safety, and enable digital identity management

What we offer

- 1 Digitization of public security operations**
Presight offers anomaly detection, threat detection, alert & notification, target identification and prediction & prevention services
- 2 Digitization of the citizen**
Presight deploys e-government services and analytics to better serve the needs of citizens
- 3 Digitization of urban planning**
Presight uses advanced big data analytics to drive efficiency and cost savings for urban planning
- 4 Automation of teamwork management**
Presight provides case management, BI & dashboards, reporting and permission & classification services

Energy & Utilities

Using big data analytics powered by GenAI, we empower the energy sector with advanced GenAI solutions to improve decision-making and drive efficiency, and help organizations identify, manage, and predict the environmental impact of their business activities

What we offer

- 1 Driving Operational Efficiency**
Leveraging world-class industry knowledge and experience, and organizing operational data through AI-based tools, Presight has a portfolio of powerful solutions to support industry players enhance the pace and efficiency of operations
- 2 Reduce Environmental Impact**
Presight's Energy Solution enables companies in the Oil and Gas sector and beyond to utilize data-driven analysis, computation, and modeling to power better operational decision-making and evolve towards a sustainable future
- 3 Data-driven Decision Making**
As the era of easy oil declines, the volume and complexity of Oil and Gas operations is increasing. Correspondingly, accurate and effective decision-making and planning are becoming critical
- 4 Deep Sector Understanding**
We understand the Energy sector's dilemma of balancing growth with HSE, sustainability, and other goals. Our Energy Solutions helps clients to perform better, protect teams and equipment, keep operations sustainable, and rapidly scale successes

Finance

Our expertise helps equip regulatory authorities and institutions with the tools to identify and address financial anomalies, fraud, and risks using big data analytics powered by GenAI. Our solutions ensure integrity and security in financial transactions and operations

What we offer

1	Growing use of Data Analytics and AI Presight has a proven and strong track record in developing AI solutions in this segment
2	Migration to cloud Presight offers secure cloud services through G42 ecosystem
3	Automation and digitization of banking services Presight offers eKYC, alternate credit scoring, AML and CTF services
4	Rising cost of compliance Economy of scale applies as Presight can leverage on inhouse technology stack to create solutions

Smart Cities

Our solutions transform cities into smart cities by integrating IoT (Internet of Things) technologies for efficient transportation, waste management, energy usage, and public safety

What we offer

1	Flexible and Adaptable Flexible solutions can be adapted to any need of a modern city and its infrastructure. Highly scalable without disruption or major upgrades, from village to megacity deployment
2	Exceeds Industry Standards Solutions are based on world leading AI & GenAI technology and validated by top global technology brands
3	On-Premise, With Cloud Benefits Enjoy the flexibility of on-premises deployment for enhanced data privacy, compliance with local regulations, and use of local data centers, all while benefiting from cloud-like features
4	Data Agnostic and GenAI Engineered Delivering on-premise advanced cutting-edge AI and GPT functions with complete local control and security using all source data

Education

Our solutions transform educational outcomes by using big data analytics powered by generative AI

What we offer

1	Use of AI for education experience customization Presight uses AI analytics to highly customize the education journey, for example, more accurate diagnostics of student skills, tailored learning paths
2	Digitalization of education Provide a rich data and AI experience in education, enabling personalized & purpose-built education products
3	Growing demand for remote learning post COVID AI driven tools to strengthen educational outcomes in remote learning environment
4	Identification of gaps in teachers' performance Actionable feedback on the success and gaps of each lesson to improve outcome

Stakeholder Overview

Domestic and International Customer Relationships

Presight serves leading organizations to create impact at scale, driving rapid improvements in the analytics quotient for each of its clients

Board of Directors

H.E. Dr. Sultan Ahmed Al Jaber
Chairman

- Minister of Industry & Advanced Technology of the UAE
- Chairman of Masdar
- Managing Director & Group CEO at ADNOC
- Over 20 years of experience across the energy spectrum
- Played a leading role in the UAE's energy diversification

H.E. Mansoor Al Mansoori
Vice Chairman

- Member of Abu Dhabi Executive Council
- Chairman of the Department of Health in Abu Dhabi
- CEO of G42 International
- Director General of UAE National Media Council
- Prominent leader with senior leadership positions across government and private sectors

Kiril Evtimov
Board Member

- Group CTO at G42 and CEO of Core42
- Co-founder, board member, and former CEO of FairSignals Inc.
- Previously held leadership roles in Teradata, MicroStrategy, and eBay
- Seasoned technology and business leader with global experience across start-ups and Fortune 500 companies

Abdulla Rashed Alrashdi
Board Member

- CEO of Tamouh Healthcare
- Successfully led Tamouh Healthcare's efforts to monitor and curb the Covid pandemic
- Extensive executive experience in various official entities, including Abu Dhabi Police General Headquarters, Abu Dhabi Authority of Culture and Heritage, and the Federal Government

Suhail Bin Tarraf
Board Member

- Group Chief Operating Officer at First Abu Dhabi Bank (FAB)
- Former Chief Operating Officer at Emirates Islamic Bank
- Performance-driven transformative leader with over 20 years of senior expertise in Strategy, Operations, Technology, and Human Resources

Hamda Almheiri
Board Member

- Director, leading the Government Affairs function for ADQ, an Abu Dhabi-based investment and holding company
- Holds authority over ADQ's collaboration with industry advocates, leveraging areas of joint interest
- Oversees the continuous monitoring of relevant government activities globally

Thomas Pramotedham
Board Member and CEO

- Technology and business leader with over 22 years of experience
- Held multiple CEO positions driving large-scale digital transformation
- Spearheads expansion of the company in Middle East, Central Asia and Africa

Management Team

Thomas Pramotedham

Chief Executive Officer

- Technology and business leader with over 22 years of experience
- Held multiple CEO positions driving large-scale digital transformation
- Spearheads expansion of the company in Middle East, Central Asia and Africa

Ram Meyoor

Chief Financial Officer

- Over 25 years of finance experience across MENA, Asia and USA
- Holds MBA from Illinois State University, Illinois, USA
- Leads the company's finance department and is responsible for all financial functions including growth, governance, and compliance

Dr Adel Alsharji

Chief Operating Officer

- Responsible for company operations, with over 25 years of experience
- Expertise and in-depth knowledge of AML, auditing, and anti-corruption, focused on developing and delivering technology-driven financial AI products and solutions
- Previously worked in civil services and has a doctorate in business administration

Xiaodong Zhou

Chief Technology Officer

- Over 17 years experience in technology, started as an applied data scientist
- Visionary strategist specialized in developing future-proof technology roadmaps
- Develops the company's technology and AI products

Governance Framework

Comprehensive Governance Structure

Committed to the highest level of governance standards in line with international best practice

Presight AI Holding PLC Board of Directors

Responsible for preserving and enhancing Presight’s long-term value for stakeholders

Audit & Risk Committee ("ARC")	Nomination & Remuneration Committee ("NRC")	Investment & Financial Committee ("IFC")
<p>Oversight of the integrity of the Company’s internal control framework, including integrity of the Company’s financial reporting, processes, policies and controls, the internal audit function and the external auditor</p> <p>Additionally, oversight of the Company's material risk exposures, risk management framework, adherence to the risk appetite set by the Board and behavioral based risk initiatives to drive risk leadership</p>	<p>Supports the Board with the Board composition, renewal, performance and Board-relegated governance matters</p> <p>Includes the remuneration and benefit strategies for senior executives, the implementation of the Emiratization plan, the methodology used to address staff performance and corporate salary and grading structures</p>	<p>Oversight of the Company’s investment transactions, investment risk management exposure policies and guidelines</p> <p>Includes review of investment manager selection</p>

Integrity Due-Diligence Process

Minimizing potential exposure to reputational, sanctions, or legal risk

Presight manages the risks by applying the following:

Presight adheres to a stringent framework for integrity Due Diligence (DD) and direction on the mandatory activities required to screen a potential or existing counterparty for reputational and regulatory risks

DD is the independent information gathering and expertise that assesses the integrity-related risks that a counterparty carries so Presight can make informed risk-based decisions on the third parties it does business with

Mitigation measures are put in place to minimize potential exposure to reputational, sanctions, or legal risk

Risk Based Integrated Processes

Appropriate Controls

Management of Relationships

Actions & Consequences

Committed to Excellence

ISO (International Organization for Standardization) certification is an internationally recognized endorsement that a company adheres to rigorous standards developed by the ISO. These standards ensure the quality, safety, efficiency, and interoperability of products, services, and systems

Proven time reduction for major aspects of seismic interpretation

+70% ACCURACY

In certain aspects of seismic interpretation

AIQ - Subsurface

AR360 (Advanced Reservoir 360) is an intelligent reservoir management and short-term production optimization solution offering a comprehensive 360° view of your reservoir by integrating various workflows. It consists of 4 key modules:

1 Digital Reservoir Model Reviewer (DRM)

- Automated Assessment of Reservoir Model Quality and Predictive Capability
- Advisory system to enhance future model generation

2 Reservoir Performance Advisor (RPA)

- Automated assessment of Production Performance and a recommendation system for workover candidate selection
- Identify opportunities to maximize recovery factor

3 AI-Assisted Production Forecast (AI-PF)

- AI-Assisted Production forecast leveraging ML and Physics (Mins vs Days)
- Generate Multi-Scenario data driven production profiles to optimize in-fill well placement

4 Integrated workflows

- Identify poor-performing wells and recommend workovers
- Optimize new well plans through FDP quality assessment
- Enhance waterflood efficiency via streamline pattern analysis

Deployment & Benefits

9 RESERVOIRS

ADNOC Onshore & Offshore

↑↑ 10%

Boost oil recovery from water flooding operations

75%

Efficiency gain in reservoir model reviews

↑↑ 20%

Extension in life of active wells over 5 years

↑↑ 10%

Cost reduction in drilling new infill wells over 5 years

DRIVE (Data-driven Reservoir Insights and Value Enhancement) is a smart portfolio optimization solution for field development planning (FDP). It leverages data-driven proxies in place of traditional reservoir simulators to efficiently optimize and rank FDP scenarios. It consists of 3 key modules:

1 Quality Assurance & Quality Check (QA/QC)

- Advisory module to compare simulation results of multiple Field Development Scenarios (FDP) with a reference business plan case
- Allows quick evaluation of Reservoir and Well KPIs

2 Multi-Realization Generator (MRG)

- An automated process for generating an ensemble of Field Development Plan (FDP) simulation models
- systematically varies field and well constraints to produce a wide range of FDP scenarios, capturing diverse operating conditions

3 Meta Model Generator (MMG)

- Builds and trains machine learning proxy models using an ensemble of simulation profiles
- Generates optimized field- and well-level proxy models to evaluate, optimize, and rank FDP scenarios by varying operating constraints

Deployment & Benefits

4 RESERVOIRS

ADNOC Upstream

↑ **30%**

New opportunities proposed beyond Business Plan scenarios

75%

Faster evaluation of FDP scenarios for Large reservoir models

↑ **20%**

Optimized field control parameters

↑ **10%**

Cost reduction in drilling new infill wells

ROCKINSIGHT

BY AIQ

RockInsight revolutionizes thin-section analysis, revealing porosity, micropore distribution, and sedimentary structures critical for optimizing field development and recovery, especially in complex carbonate reservoirs.

Traditional methods are slow, costly, and inconsistent. RockInsight delivers fully automated, AI-powered interpretation with micron-level precision in seconds, generating high-fidelity 3D geological models for objective, reproducible insights that reduce uncertainty and enhance reservoir characterization

Deployment & Benefits

7 RESERVOIRS

ADNOC Onshore, Offshore, Al Dhafra, Al Yasat, Sour Gas

Reduces OPEX

By reducing lab reliance and manual effort.

Faster decisions & results

With automated, consistent analysis.

Preserves Expertise

By retaining expert insights and eliminates human bias.

Improved Data Integration

Enhances collaboration through unified subsurface insights.

WellInsight is a suite of AI-powered tools designed to deliver fast, accurate, and consistent borehole geology interpretation, reducing manual effort and improving subsurface decision-making. It comprises four integrated solutions

1 BHI (Borehole Image Interpretation)

- Automates geological feature detection and classification.
- Uses computer vision for dip magnitude and azimuth evaluation.
- Provides real-time, repeatable results with automatic dip picking

2 AI-1DMEM (1D Mechanical Earth Model)

- Generates high-resolution MEMs from borehole and log data
- Supports wellbore stability analysis
- Enables drilling optimization and geomechanical planning

3 AI-GeoStress

- Analyses and visualizes in-situ stress along the well path
- Optimizes well placement and reduces drilling risks

4 AI-Payzones

- Identifies and evaluates high-potential reservoir zones
- Integrates geological, geomechanical, and petrophysical data for efficient development

Deployment & Benefits

ADNOC 5 OPCOS

Onshore, Offshore, Al Dhafra, Al Yasat & Sour Gas

Reduces OPEX

Automates analysis to cut costs and enhance performance

Reduced Uncertainty

Speeds decisions with consistent, automated insights.

Safer, Efficient Operations

By Improving wellbore stability and drilling efficiency.

Improved Data Integration

Integrates subsurface data for better asset management and decisions.

AIQ - Drilling

DRILLING

AIQ

AI-powered drilling solution designed to enhance well delivery by optimizing drilling performance, avoid interruptions, and automating reporting and quality control in drilling operations. It consists of 3 key solutions

1 OPTIDRILL

OPTIDRILL is a web-based tool that improves drilling performance and reduces well development time using micro-KPIs and real-time alerts. It collects, validates, and analyzes operational data through robust quality controls, delivering actionable insights via a single, intuitive dashboard.

2 DRILLREP

DRILLREP is a QA/QC tool that streamlines Daily Drilling Report reviews by automating time summary checks. It ensures accurate and consistent code and subcode reporting, reducing errors, review time, and manual effort.

3 DRILLTECT

DRILLTECT helps operators prevent drilling interruptions by detecting and predicting drill hole issues through real-time data analysis. It uses standard surface sensor data to identify anomalies and trigger alerts, requiring minimal human intervention and enabling scalable deployment across rig fleets.

DRILLING

Deployment & Benefits

135 RIGS

ADNOC Onshore & Offshore

100%

Efficiency gain in people productivity of the QA/QC process

50%

Enhanced stuck pipe detection cuts non-productive time and costs

10%

Reduction in invisible lost time identified

40%

Improved Operational Efficiency

Reduces OPEX

By predicting anomalies early and enabling faster issue resolution.

AIQ - Production

ROBOWELL

BY AIQ

AIQ

AIQ's ROBOWELL is designed to assist in the stabilization of well production in the most economically efficient manner possible

The application is set up to eliminate the need for the operations personnel to constantly monitor and adjust the well-operating variables

ROBOWELL is able to maintain stable operating conditions and optimize well production while considering the objectives to minimize gas lift consumption and operating constraints such as minimum bottom hole pressure, maximum flow line pressure, and maximum annulus pressure (MAASP), among other factors

The presented plots illustrate the impact of implementing a controller on well operations, focusing on both well head pressure and production rates over time

Deployment & Benefits

500+ WELLS

ADNOC Upstream

First application

Of Advanced Process Control (APC) technology for gas lift wells

Up to 30%

Gas lift optimization while keeping wells within their optimal operating range.

Drives digital transformation

By reducing non-value-added tasks, fostering collaboration, and promoting a digital-first mindset.

Up to 5%

Increase in production by maintaining target flow and easing operator workload.

The AI-Powered Pump Management Solution

Foresight is an AI-powered solution built to maximise the uptime and efficiency of Electric Submersible Pumps (ESPs) and is scalable to any type of rotating pump

Foresight is a cloud-based solution combining machine learning, physics, and statistical analysis to predict failure probabilities. The platform uses historical sensor data with advanced processing, interpolation, and feature engineering to deliver accurate predictive insights, extend asset life and optimise operations.

Value & Benefits

MAXIMIZE PROFITABILITY BY:

Reduce downtime by catching issues early

Extend pump life by maximizing time between failures

Plan smarter to cut waste and boost efficiency

Control costs by streamlining pump inventory

Lift ESP output with smarter reservoir insights

ENABLE PEOPLE TO:

Minimize the asset's time spent on non-value-added tasks

Reduce time to diagnose trip causes

Nurture a digitalization mindset

Increase productivity performance by providing more time on business planning and decision-making

FORESIGHT

BY AIQ

AIQ

AIQ in collaboration with ADNOC, deployed the Foresight solution across ~115 wells from Onshore and Offshore assets to predict ESP failures in advance, aiming to prevent unplanned downtime and production losses.

Achieved 88.6% accuracy in failure prediction with 91.7% precision

Preventive actions ensured well interventions were planned.

Reduced ESP downtime up to 50%.

Around 10 million USD were saved during pilot stage.

The picture shows a clear increase in the failure indicator computed by Foresight, which accurately predicted an impending mechanical failure. The failure occurred three months later, validating the predictive analysis.

AIQ - Asset Integrity

CORROVISION is an AI-powered computer vision solution that detects and classifies corrosion severity, raises anomaly alerts, and recommends mitigation actions. It has 4 different Modules:

1 External Corrosion Detection

- Automated detection of corrosion from non-corrosion
- Classify corrosion into low, medium, high,
- Detection of pitting

2 Pipe Patrol Detection

- UAV integration for Aerial monitoring of pipeline routes
- Detection of sand build up, leaks, 3rd party, pipe exposure.
- Detection of vandalism

3 Electric Tower Anomaly Detection

- Identifies rust and structural degradation on AC towers
- Flags Absent or dislodged insulators impacting safety and performance
- Detects damage to power lines and associated hardware

4 Corrosion Advisor

- AI-driven assistant for contextual guidance and decision support
- Real-time tracking, prioritization, and automated case handling
- Predictive planning to reduce downtime and improve efficiency

Deployment & Benefits

ADNOC GAS

↓ **30%**

Reduction in visual inspection time and related costs maximizes efficiency

>80%

Realistic corrosion prediction.

Boosts productivity by focusing inspections and minimizing bias

OPEX reduction via more efficient inspections

Real-time, accurate corrosion classification for timely decision-making.

CORROSCAN is a cloud-based solution that uses AI and historical data to predict corrosion at individual Condition Monitoring Locations (CMLs). Machine Learning models forecast corrosion across pressure equipment and pipelines. Enables accurate, proactive maintenance planning..

It has 3 main functions:

1 Prediction of Next Inspection

- Monitors Thickness Monitoring Locations (TMLs) on pressure-static equipment
- Predicts optimal inspection dates based on historical TML data

2 Prioritizing Inspection Schedule

- Prioritizing inspection schedule based on the prediction followed up by optimization

3 Corrosion Advisor

- Virtual RBI expert for inspection planning and decision support
- End-to-end tracking of inspection cases and actions
- Optimized maintenance and resource allocation to minimize downtime

Deployment & Benefits

ADNOC GAS

↓ ↓ **20%**

Minimize yearly inspection

↓ ↓ **40%**

Predicts remnant wall thickness and cuts future UT inspections

Enhance productivity by targeting nearing end-of-life assets for timely repair and replacement.

>85%

Realistic corrosion prediction

Faster, smarter decisions with centralized expert knowledge.

AIQ - HSE

EmissionX is an AI-powered platform that monitors near real-time GHG emissions, forecasts trends, and generates standardized reports. It integrates with systems like DCS and SCADA for continuous Scope 1 & 2 tracking at the equipment level. The platform offers predictive analytics, early anomaly detection, decarbonization advice, and scenario modelling to support compliance and data-driven decisions.

SCOPE 1

These are “**direct**” emissions caused by a company through the operation of its own assets.

SCOPE 2

These are “**indirect**” emissions generated from the production of the energy and organization purchases.

Deployment & Benefits

14 ASSETS & 500+ EMISSION SOURCES

ADNOC Gas, Sour Gas, Offshore & Refining

Real-time visibility into Scope 1 and 2 emissions at the equipment level enables quick action and response

90%+ accuracy in forecasting emissions and detecting anomalies using AI-driven **predictive intelligence**.

Help to assess the impact of carbon abatement initiatives

Makes carbon reduction efforts more cost effective & impactful

Integrates with existing systems via API for smooth data flow.

SMARTi is an AI-driven safety and operations solution that connects to existing CCTV systems via the SMARTi Edge Box. Using advanced computer vision, it enables real-time monitoring, hazard detection, compliance tracking, and automated reporting - enhancing safety, ensuring compliance, and boosting operational efficiency across industries.

We have over 35 use cases across different verticals

About G42

Leading **Artificial Intelligence** and **Cloud computing** company

At G42, we are on a mission to drive positive human progress through the combined efforts of people and technology. Born in Abu Dhabi and operating across the world, we champion AI as a powerful force for good. Our people are constantly reimagining what technology can do, applying advanced thinking and innovation to accelerate progress and help us tackle society's most pressing problems.

Our platforms and industry solutions harness the latest scientific research and apply them in responsible ways. Best-in-class digital transformation and infrastructure expertise brings the cutting-edge to every sector we serve, enabling true commercial impact.

In a nutshell, **we invent a better everyday.**

23,000+

People

80+

Nationalities

30+

Countries

● Underpinning digital transformation leveraging a **common technology platform**

● Enabling Enterprise AI for the **public sector and regulated industries**

● Delivering **commercial and societal impact**

Born in 2018 in **Abu Dhabi** and expanding globally

The Intelligence Grid™

At G42, we envision a future where **AI becomes an indispensable super-utility**, as integral to our daily lives as electricity. This vision is embodied in our concept of the Intelligence Grid, designed to integrate AI into every facets of people and planet advancement, delivering knowledge, assistance, and capabilities on demand. The Intelligence Grid relies on a scalable infrastructure connecting data centers, cloud, AI models, sensors, and more, ensuring that AI services are accessible everywhere, for anyone and always reliable, and secure.

About G42 Operating Companies

Overview

FOUNDATION OF THE DIGITAL INFRASTRUCTURE

Leading data center provider in the MENA region with unparalleled design, development, and operating expertise.

CLOUD ENABLEMENT

Sovereign cloud pioneer born in the MENA region, delivering robust Cloud and HPC infrastructure, and managed services.

BUSINESS INTELLIGENCE AND BIG DATA ANALYTICS

Highly scalable Big Data platform serving government and enterprise clients globally.

GEOSPATIAL TECH LEADER

Wide offerings in satellite telecommunications, geospatial intelligence and AI across industries, including, Transportation, Energy, Environment, Defense and more.

BESPOKE AI MODELS FACTORY

Domain-specific AI models development, including national LLMs on local language and corporate navigators.

TECHNOLOGY ENABLED CARE

National champion of end-to-end healthcare with Centers of Excellence for care delivery performing in the top tier of global benchmarks.

AI FOR THE OIL & GAS AND ENERGY SECTOR

Shaping the transformation of the Energy sector, by leveraging AI with a combination of compute infrastructure, unique datasets and industry expertise. JV Presight/ADNOC.

END-2-END CYBER AND PHYSICAL SECURITY

End-to-end cybersecurity capabilities to accelerate cyber maturity with robust cyber resilience services, cloud security, red team & more.

TAKING INTELLIGENCE TO THE EDGE OF COMPUTING

Creating platforms that connect people, places and things through the use of smart sensors and mixed reality devices to serve multiple industries.

LARGEST CONSUMER APP ECOSYSTEM IN THE REGION

The MENA Region's first Super App, creating full-fledged communications, payment and lending network.
