REPORT ON REVIEW OF CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION TO THE SHAREHOLDERS OF PRESIGHT AI HOLDING PLC

Introduction

We have reviewed the accompanying condensed consolidated statement of financial position of Presight AI Holding PLC (the “Company”) and its subsidiaries (together referred to as the “Group”) as of 30 September 2024, and the related condensed consolidated statements of profit or loss and other comprehensive income, changes in equity and cash flows for the nine-month period then ended, material accounting policy information and other explanatory notes.

Management is responsible for the preparation and fair presentation of this interim financial information in accordance with International Accounting Standard IAS 34 Interim Financial Reporting (‘IAS 34’). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with IAS 34.

(i) On 4 May 2023, the Company acquired shareholding in the subsidiary from an entity under common control for a nominal consideration.

On 17 November 2023, the Company opened a branch in Azerbaijan. The branch did not have any operations as at 30 September 2024 and 31 December 2023.

2 Application of new and revised International Financial Reporting Standards (IFRS Accounting Standards) (IFRSs)**2.1 New and revised IFRSs applied with no material effect on the condensed consolidated interim financial information**

The accounting policies adopted in the preparation of the condensed consolidated interim financial information are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2023, and the notes attached thereto, except for the adoption of certain new and revised standards, that became effective in the current period as set out below.

Amendments to IAS 1 Presentation of Financial Statements - Classification of Liabilities as Current or Non-current

The amendments to IAS 1 published in January 2020 affect only the presentation of liabilities as current or noncurrent in the statement of financial position and not the amount or timing of recognition of any asset, liability, income or expenses, or the information disclosed about those items.

Amendments to IAS 1 Presentation of Financial Statements - Non-current Liabilities with Covenants

The amendments specify that only covenants that an entity is required to comply with on or before the end of the reporting period affect the entity's right to defer settlement of a liability for at least twelve months after the reporting date (and therefore must be considered in assessing the classification of the liability as current or noncurrent).

Amendments to IAS 7 Statement of Cash Flows and IFRS 7 Financial Instruments: Disclosures - Supplier Finance Arrangements

The amendments add a disclosure objective to IAS 7 stating that an entity is required to disclose information about its supplier finance arrangements that enables users of financial statements to assess the effects of those arrangements on the entity's liabilities and cash flows.

Amendment to IFRS 16 Leases - Lease Liability in a Sale and Leaseback

The amendments to IFRS 16 add subsequent measurement requirements for sale and leaseback transactions that satisfy the requirements in IFRS 15 to be accounted for as a sale. The amendments require the seller-lessee to determine 'lease payments' or 'revised lease payments' such that the seller-lessee does not recognise a gain or loss that relates to the right of use retained by the seller-lessee, after the commencement date.

**Notes to the condensed consolidated interim financial information
for the nine-month period ended 30 September 2024 (continued)**

2 Application of new and revised International Financial Reporting Standards (IFRS Accounting Standards) (IFRSs) (continued)

2.2 New and revised IFRSs in issue but not yet effective and not early adopted

The Group has not yet applied the following new and revised IFRSs that have been issued but are not yet effective:

<u>New and revised IFRSs and IFRS Sustainability Disclosure Standards</u>	<u>Effective for annual periods beginning on or after</u>
IFRS S1 <i>General Requirements for Disclosure of Sustainability-related Financial Information</i>	1 January 2024*
IFRS S2 <i>Climate-related Disclosures</i>	1 January 2024*
Amendments to IAS 21 <i>The Effects of Changes in Foreign Exchange Rates</i> — Lack of Exchangeability	1 January 2025
Amendments to IFRS 9 and IFRS 7 <i>Classification and Measurement of Financial Instruments</i>	1 January 2026
Annual Improvements to IFRS Accounting Standards — Volume 11.	1 January 2026
The pronouncement comprises the following amendments:	
<ul style="list-style-type: none"> • IFRS 1: Hedge accounting by a first-time adopter • IFRS 7: Gain or loss on derecognition • IFRS 7: Disclosure of deferred difference between fair value and transaction price • IFRS 7: Introduction and credit risk disclosures • IFRS 9: Lessee derecognition of lease liabilities • IFRS 9: Transaction price • IFRS 10: Determination of a ‘de facto agent’ • IAS 7: Cost method 	
IFRS 18 <i>Presentation and Disclosure in Financial Statements</i>	1 January 2027
IFRS 19 <i>Subsidiaries without Public Accountability: Disclosures</i>	1 January 2027
Amendments to IFRS 10 <i>Consolidated Financial Statements</i> and IAS 28 <i>Investments in Associates and Joint Ventures</i> — Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	Effective date not yet decided.

*Subject to adoption by the local jurisdiction.

Management anticipates that these new standards, interpretations and amendments will be adopted in the Group’s condensed consolidated interim financial information as and when they are applicable and adoption of these new standards and amendments may have no material impact on the condensed consolidated interim financial information of the Group in the period of initial application.

**Notes to the condensed consolidated interim financial information
for the nine-month period ended 30 September 2024 (continued)****3 Material accounting policy information****Statement of compliance**

These condensed consolidated interim financial information for the nine-month ended 30 September 2024 have been prepared in accordance with International Accounting Standard (IAS) 34, “Interim Financial Reporting” and applicable requirements of Abu Dhabi Global Market (“ADGM”) Companies Regulations 2020 and Companies Regulations (International Accounting Standards) Rules 2015.

Basis of preparation

The condensed consolidated interim financial information does not include all the information required for full annual consolidated financial statements and should be read in conjunction with the consolidated financial statements of the Group as at and for the year ended 31 December 2023. In addition, results for nine-month period ended 30 September 2024 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2024.

The condensed consolidated interim financial information is presented in UAE Dirhams (“AED”), the currency of the primary economic environment in which the Group operates and all values are rounded to the nearest thousand (AED’000) except where otherwise indicated.

The condensed consolidated interim financial information has been prepared on the historical cost basis.

The accounting policies applied by the Group in this condensed consolidated interim financial information are consistent with those in the annual audited consolidated financial statements for the year ended 31 December 2023, except for the adoption of new standards and interpretations effective 1 January 2024 and the following policies:

Goodwill

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer’s previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after reassessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer’s previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period (which cannot exceed one year from the acquisition date), or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed as of the acquisition date that, if known, would have affected the amounts recognised as of that date.

**Notes to the condensed consolidated interim financial information
for the nine-month period ended 30 September 2024 (continued)****3 Material accounting policy information (continued)****Goodwill (continued)**

Goodwill is not amortised but is reviewed for impairment at least annually. For the purpose of impairment testing, goodwill is allocated to each of the group's cash-generating units (or groups of cash-generating units) expected to benefit from the synergies of the combination. Cash-generating units to which goodwill has been allocated are tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than the carrying amount of the unit, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata on the basis of the carrying amount of each asset in the unit. An impairment loss recognised for goodwill is not reversed in a subsequent period.

On disposal of a cash-generating unit, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the condensed consolidated statement of profit or loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates enacted or substantively enacted by the end of the reporting period.

Deferred tax

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the condensed consolidated financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the condensed consolidated financial statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

**Notes to the condensed consolidated interim financial information
for the nine-month period ended 30 September 2024 (continued)****3 Material accounting policy information (continued)****Taxation (continued)***Deferred tax (continued)*

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised based on tax laws and rates that have been enacted or substantively enacted at the reporting date.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities. Current and deferred tax are recognised in condensed consolidated statement of profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

4 Critical judgements and key sources of estimation uncertainty

The preparation of the condensed consolidated interim financial information requires management to make judgments, estimates and assumptions that affects the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. The significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those applied to the Group's annual consolidated financial statements for the year ended 31 December 2023, except for the following judgements and estimates:

Business combinations

Accounting for the acquisition of a business requires the allocation of the purchase price to the various identifiable assets and liabilities of the acquired business including intangible assets. For most assets and liabilities, the purchase price allocation is accomplished by recording the asset or liability at its estimated fair value. Determining the fair value of assets acquired and liabilities assumed requires judgment by management and often involves the use of significant estimates and assumptions, including assumptions with respect to future cash inflows and outflows, discount rates, the useful lives of intangible assets and other assets and market multiples.

The Group's management uses all available information to make these fair value determinations. At 30 September 2024, the purchase price allocation exercise for the acquisition of Matrix JVCO Ltd ('AIQ') is in process. Accordingly, the amounts reported in the financial information are provisional and shall be updated upon completion of the purchase price allocation exercise.

4 Critical judgements and key sources of estimation uncertainty (continued)

Determination of cash generating units

In making the assessment for impairment, assets that do not generate independent cash flows are allocated to an appropriate cash generating unit (CGU). Management applies its judgment in allocating assets that do not generate independent cash flows to appropriate CGUs. Management's judgment is primarily based on two considerations in identifying groups of assets that have independent cash flows:

- Revenue separation: Are the streams of revenue derived from these groups of assets independent of one another.
- Asset separation: Are assets operated together to such an extent that they do not generate independent revenue streams. A CGU is identified consistently from period to period for the same assets of type of assets, unless a change is justified. Subsequent changes to CGU allocation may impact carrying value and impairment loss of the respective assets.

Classification of investments in Matrix JVCO Ltd and Presight TOTM AI Ltd:

The Group applies significant judgement with respect to the classification of investments with respect to control, joint control or significant influence exercised on those investments. For assessing control, the Group has considered power over the investee, exposure, or rights, to variable returns from its involvement with the investees and the ability to use its power over the investee to affect its returns. The Group has considered all relevant facts and circumstances in assessing whether it has power over the investees, including the contractual arrangement with the other shareholders of the investees and de-facto control. The Group considers that it has de-facto control over Matrix JVCO Ltd ("AIQ") and Presight TOTM AI LTD, as the Group holds 51% of ownership interest and voting power in each investee.

8 Trade and other receivables (continued)

The Group measures the allowance for expected credit loss (ECL) for trade receivables at an amount equal to lifetime expected credit loss (ECL). The expected credit losses on trade receivables are estimated using a loss rate, with reference to past default experience of the debtor and an analysis of the debtor's current financial position, adjusted for factors that are specific to the debtors, general economic conditions of the industry in which the debtors operate and an assessment of both the current as well as the forecast direction of conditions at the reporting date. The expected credit loss on trade receivables is AED 6,557 thousand as at 30 September 2024 (31 December 2023: AED 5,593 thousand).

Trade and other receivables include AED 649,078 thousand (31 December 2023: AED 864,705 thousand) pertaining to related parties (note 10).

The Group has adopted a policy of dealing with only creditworthy counterparties. Adequate credit assessment is made before accepting an order for sale of services or goods from counterparty.

9 Contract assets

Contract assets mainly represent balances due from customers under software development, installation and support service contracts that arise when the Group receives payments from customers in line with a series of performance related milestones. The Group recognises a contract asset for any work performed in excess of amounts billed to the customer.

Any amount previously recognised as a contract asset is reclassified to trade receivables at the point at which it is invoiced to the customer. Payments are usually not due from the customers until either the services are complete or the respective milestones are achieved and therefore a contract asset is recognised over the period in which the services are performed to represent the Group's right to consideration for the services transferred to date. The expected credit loss on contract assets is AED 3,067 thousand as at 30 September 2024 (31 December 2023: AED 3,067 thousand).

Carrying amount of contract assets is as follows:

	30 September 2024 AED'000 (unaudited)	31 December 2023 AED'000 (audited)

10 Related party transaction and balances

Related parties, as defined in International Accounting Standard 24: *Related Party Disclosures* include associate companies, major shareholders, directors and other key management personnel of the Group, and entities controlled, jointly controlled or significantly influenced by such parties. Management approves prices and terms of payment for these transactions and these are carried out at mutually agreed rates.

The Group, in the ordinary course of business, enters into transactions, with other business enterprises or individuals that fall within the definition of related parties contained in International Accounting Standard 24. The Group has a related party relationship with the Government of Abu Dhabi, directors and executive officers (including business entities over which they can exercise significant influence, or which can exercise significant influence over the Group).

The Group maintains significant balances with these related parties, which arise from commercial transactions.

Balances with related parties at the end of the reporting period comprise:

- (i) Short-term deposits have original maturities between three to twelve months. The deposits carry interest at prevailing market rates. Short-term deposits include a fixed deposit amounting to AED 17,225 thousand (31 December 2023: AED 16,343 thousand) with an original maturity of 12-months and is held under lien as security for a bank guarantee.

The Group's bank balances are part of a cash pooling facility arrangement (the "Arrangement") where all balances at the end of the day are transferred to the bank account of the Company at the end of the day.

Cash at bank and short-term deposit of AED 506,958 thousand (31 December 2023: AED 602,873 thousand) pertain to banks which are a related party (note 10).

Balances with banks are assessed to have low credit risk of default since these banks are highly regulated by the central bank of the UAE. Accordingly, management of the Group estimates the loss allowance on balances with banks at the end of the reporting period at an amount equal to 12-month ECL. None of the balances with banks at the end of the reporting period are past due, and taking into account the historical default experience and the current credit ratings of the bank, the management of the Group have assessed that there is no impairment, and hence have not recorded any loss allowances on these balances.

12 Income tax

On 9 December 2022, the United Arab Emirates (UAE) Ministry of Finance (“MoF”) released Federal Decree-Law No 47 of 2022 on the Taxation of Corporations and Businesses, Corporate Tax Law (“CT Law”) to enact a new CT regime in the UAE. The new CT regime has become effective for accounting periods beginning on or after 1 September 2023. As the Group’s accounting year ends on 31 December, the first tax period will be the period from 1 January 2024 to 31 December 2024, with the respective tax return to be filed on or before 30 September 2025.

The taxable income of the entities that are in scope for UAE CT purposes will be subject to the rate of 9% corporate tax. It is not currently foreseen that the Group’s UAE operations will be subject to the application of the Global Minimum Tax rate of 15% in the financial year ending 31 December 2024. The application is dependent on the implementation of Base Erosion Profit Shifting (BEPS 2) - Pillar Two rules by the countries where the Group operates and the enactment of Pillar Two rules by the UAE MoF.

The tax charge for the nine-month period ended 30 September 2024 is AED 28,292 thousand (30 September 2023: AED nil), representing an Effective Tax Rate (“ETR”) of 9% (30 September 2023: 9%).

for the nine-month period ended 30 September 2024 (continued)**

21 Basic and diluted earnings per share

Basic earnings per share amounts are calculated by dividing the profit attributable to owners of the Company by the weighted average number of ordinary shares outstanding during the period. The following reflects the income and share data used in the basic earnings per share computations:

	Three-month period ended 30 September		Nine-month period ended 30 September	
	2024	2023	2024	2023
	(unaudited)	(unaudited)	(unaudited)	(unaudited)
Profit attributable to owners of the Company (AED'000)	96,954	130,578	264,342	269,471

The following reflects the calculation of weighted average number of shares for the purpose of basic earnings per share computations:

	Three-month period ended 30 September		Nine-month period ended 30 September	
	2024	2023	2024	2023
	(unaudited)	(unaudited)	(unaudited)	(unaudited)
Weighted average number of shares in issue ('000)	5,608,680	1,488,503	5,608,680	4,465,510
Earnings per share (AED)	0.02	0.09	0.05	0.06

The Group does not have potentially dilutive shares and accordingly, diluted earnings per share is equal to basic earnings per share.

22 Contingent liabilities and commitments

The Group has the following contingent liabilities and commitments outstanding at 30 September 2024 and 31 December 2023:

	30 September 2024 AED'000 (unaudited)	31 December 2023 AED'000 (audited)
Guarantees	400,968	368,719

The guarantees were issued in the normal course of business.

Guarantees amounting to AED 1,427 thousand (31 December 2023: AED 1,427 thousand) are in the name of related parties but assigned for the benefit of the Group (note 10).

for the nine-month period ended 30 September 2024 (continued)****23 Segment information**

IFRS 8 *Operating Segments* requires operating segments to be identified on the basis of internal reports about components of the Group that are regularly reviewed by the chief operating decision maker in order to allocate resources to the segment and to assess its performance.

The operations of the Group are limited to one segment viz. artificial intelligence, machine learning, data analytics and hosting. The products and services being sold under this segment are of similar nature.

The Group's chief operating decision maker reviews the internal management reports prepared based on aggregation of financial information for all entities in the Group (adjusted for intercompany eliminations, adjustments etc.) on a periodic basis, for the purpose of allocation of resources and evaluation of performance. Accordingly, management has identified the above segment as the only operating segment for the Group.

24 Financial instruments

All financial assets and liabilities are measured at amortised cost and management consider that the carrying amounts of financial assets and liabilities recognised in the condensed consolidated interim financial information approximate their fair values.

25 Seasonality of results

No income of a seasonal nature was recorded in the condensed consolidated statement of profit or loss for the six months ended 30 September 2024 and 30 September 2023.

26 Comparative figures

Certain comparative figures have been reclassified, where necessary, to conform to the current year presentation of the notes to the condensed consolidated interim financial information. The reclassifications did not have an impact on the condensed consolidated statement of financial position as at 30 September 2023, condensed consolidated statement of profit or loss and other comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated statement of cash flows for the nine-month period ended 30 September 2023.

27 Approval of the condensed consolidated interim financial information

The condensed consolidated interim financial information was approved by management and authorised for issue by the Board of Directors on 11 November 2024.
