Legal Disclaimer

Forward-Looking Statements & Risks Acknowledgement

This document includes forward-looking statements. The forward-looking statements involve known and unknown risks and uncertainties, many of which are beyond the Company's control and all of which are based on the Company's current beliefs and expectations about future events. Forward-looking statements are sometimes identified as “expects”, “may”, “will”, “could”, “should”, “shall”, “risk”, “intends”, “estimates”, “aims”, “plans”, “predicts”, “continues”, “assumes”, “positioned”, “anticipates”, “is seeking”, “growth”, “targets”, “forecasts” or the negative thereof, other variations thereon or comparable terminology.

These forward-looking statements include all matters that are not historical facts. They may appear in multiple places throughout the Pitchbook and include statements regarding the intentions, beliefs or current expectations of the Company concerning, among other things, the future results of operations, financial condition, prospects, growth, strategies, and dividend policy of the Company and the industry in which it operates. In particular, the statements in relation to risk factors and business background regarding the Company's strategy, targets and other future events or prospects are or may be forward-looking statements.

Forward-looking statements and other statements contained in this document regarding matters that are not historical facts involve predictions. No assurance can be given that such future results will be achieved; actual events or results may differ materially because of risks and uncertainties facing the Company. Such risks and uncertainties could cause actual results to vary materially from the future results indicated, expressed, or implied in such forward-looking statements. Such forward-looking statements contained in this document speak only as of the date of this document. Any obligation or undertaking to update any forward-looking statements contained in the document to reflect any change in their expectations or any change in events, conditions, or circumstances on which such statements are based is expressly disclaimed unless required by applicable law, rules and regulations.

Accordingly, undue reliance should not be placed on any of the forward-looking statements in this document. Statements contained herein as to the contents of any agreements or other documents are summaries and, therefore, are necessarily selective and incomplete.

The Big Picture

1

AI Expansion is Attracting Substantial Capital Investment

US: Stargate: ~\$500 billion by 2029
AMZN ~100BN; MSFT ~80BN; GOOG ~75BN

EU: InvestAI: ~€200 billion
France: ~€110 billion

UAE: MGX: ~\$100 billion

2

AI-driven Automation is Accelerating Across Critical Sectors

Becoming essential for efficiency and sustainability - Energy & Utilities, Public Services, Financial Services, Public Infrastructure

UAE and global governments are accelerating AI adoption in governance, infrastructure, and national security

3

Delivering a Compounding Economic Impact

AI is projected to contribute ~14% to global GDP by 2030

- Global economic impact: ~\$16 trillion
- UAE economic impact: ~\$100 billion

Sovereign AI investment signals strong AI ambition globally

4

The Rise of Agentic AI (Autonomous AI Agents)

Agentic AI represents the next evolution in AI, where AI-powered agents can autonomously plan, execute, and adapt to tasks without constant human intervention

About Presight

Presight (a G42 company), is a leading Big Data Analytics company powered by Artificial Intelligence (AI)

Our unique proposition is not just to solve current problems but to anticipate future ones, create new businesses and foster positive societal impacts. We are shaping the next generation of cities, businesses, and industries, steering digital transformation across the globe

We combine big data, analytics, and AI expertise to serve every sector, of every scale, to create business and positive societal impact

Governments, financial institutions, sports leagues, and climate organizations - all are choosing Presight to navigate through their toughest challenges

LEADER

Region's leading Big Data Analytics Company powered by AI

Business Model

Presight provides an “end to end” technology stack for both cloud-based and on-premise solutions

Business Model Breakdown

- Presight’s analytics platform involves implementation of our key software solutions and forms the top customer facing layer
- Priced based on system complexity (# of data sources /users etc) as entails software, support and implementation services
- Implementation services entail the provision of 3rd party hardware & solutions that may serve as data input to the analytics platform
- Priced on ‘cost-plus’ basis
- Cloud & data center offerings provides the underlying infrastructure for compute, storage and other cloud related services
- Priced on ‘cost-plus’ basis

Large Addressable Markets With Clear Structural Drivers

Medium Term Strategic Road Map

Business Vertical Progression (2023 – 2027)

Core Sectors & Product Focus

Growth to be led by focusing on key vertical drivers, R&D, M&A & strategic international initiatives

Energy Focused AI-Innovation

51%
stake

AIQ

- Established in 2020 as a JV between ADNOC (60%) and G42 (40%)
- Best-in-class AI energy company - proven products & solutions to deliver transformational AI-powered solutions
- Industry leading growth and profitability

49%
stake

Acquisition Rationale

- To combine AIQ's solutions with Presight's cross-sector big data analytics, product development, international market access
- Position AIQ as a leading energy-focused AI organization, globally
- Expand Presight's suite of energy solutions to its international clientele
- Partnership with ADNOC's future digital transformation initiatives

Market Overview

- Market for AI solutions in energy sector to grow more than \$13 billion by 2034
- Leverage AI in energy sector to increase efficiency and accuracy / increase work safety / access remote areas / electrification and sustainability / digitalization
- AI will drive significant global growth opportunities in energy, unlocking efficiency and value

About AIQ

AIQ was launched in 2020 as a joint venture between global energy company ADNOC and G42, the UAE specialist in AI. With AIQ's proven expertise and top talent, our AI solutions will help clients to perform better, protect their teams and equipment, keep operations sustainable and rapidly scale successes up to the enterprise level

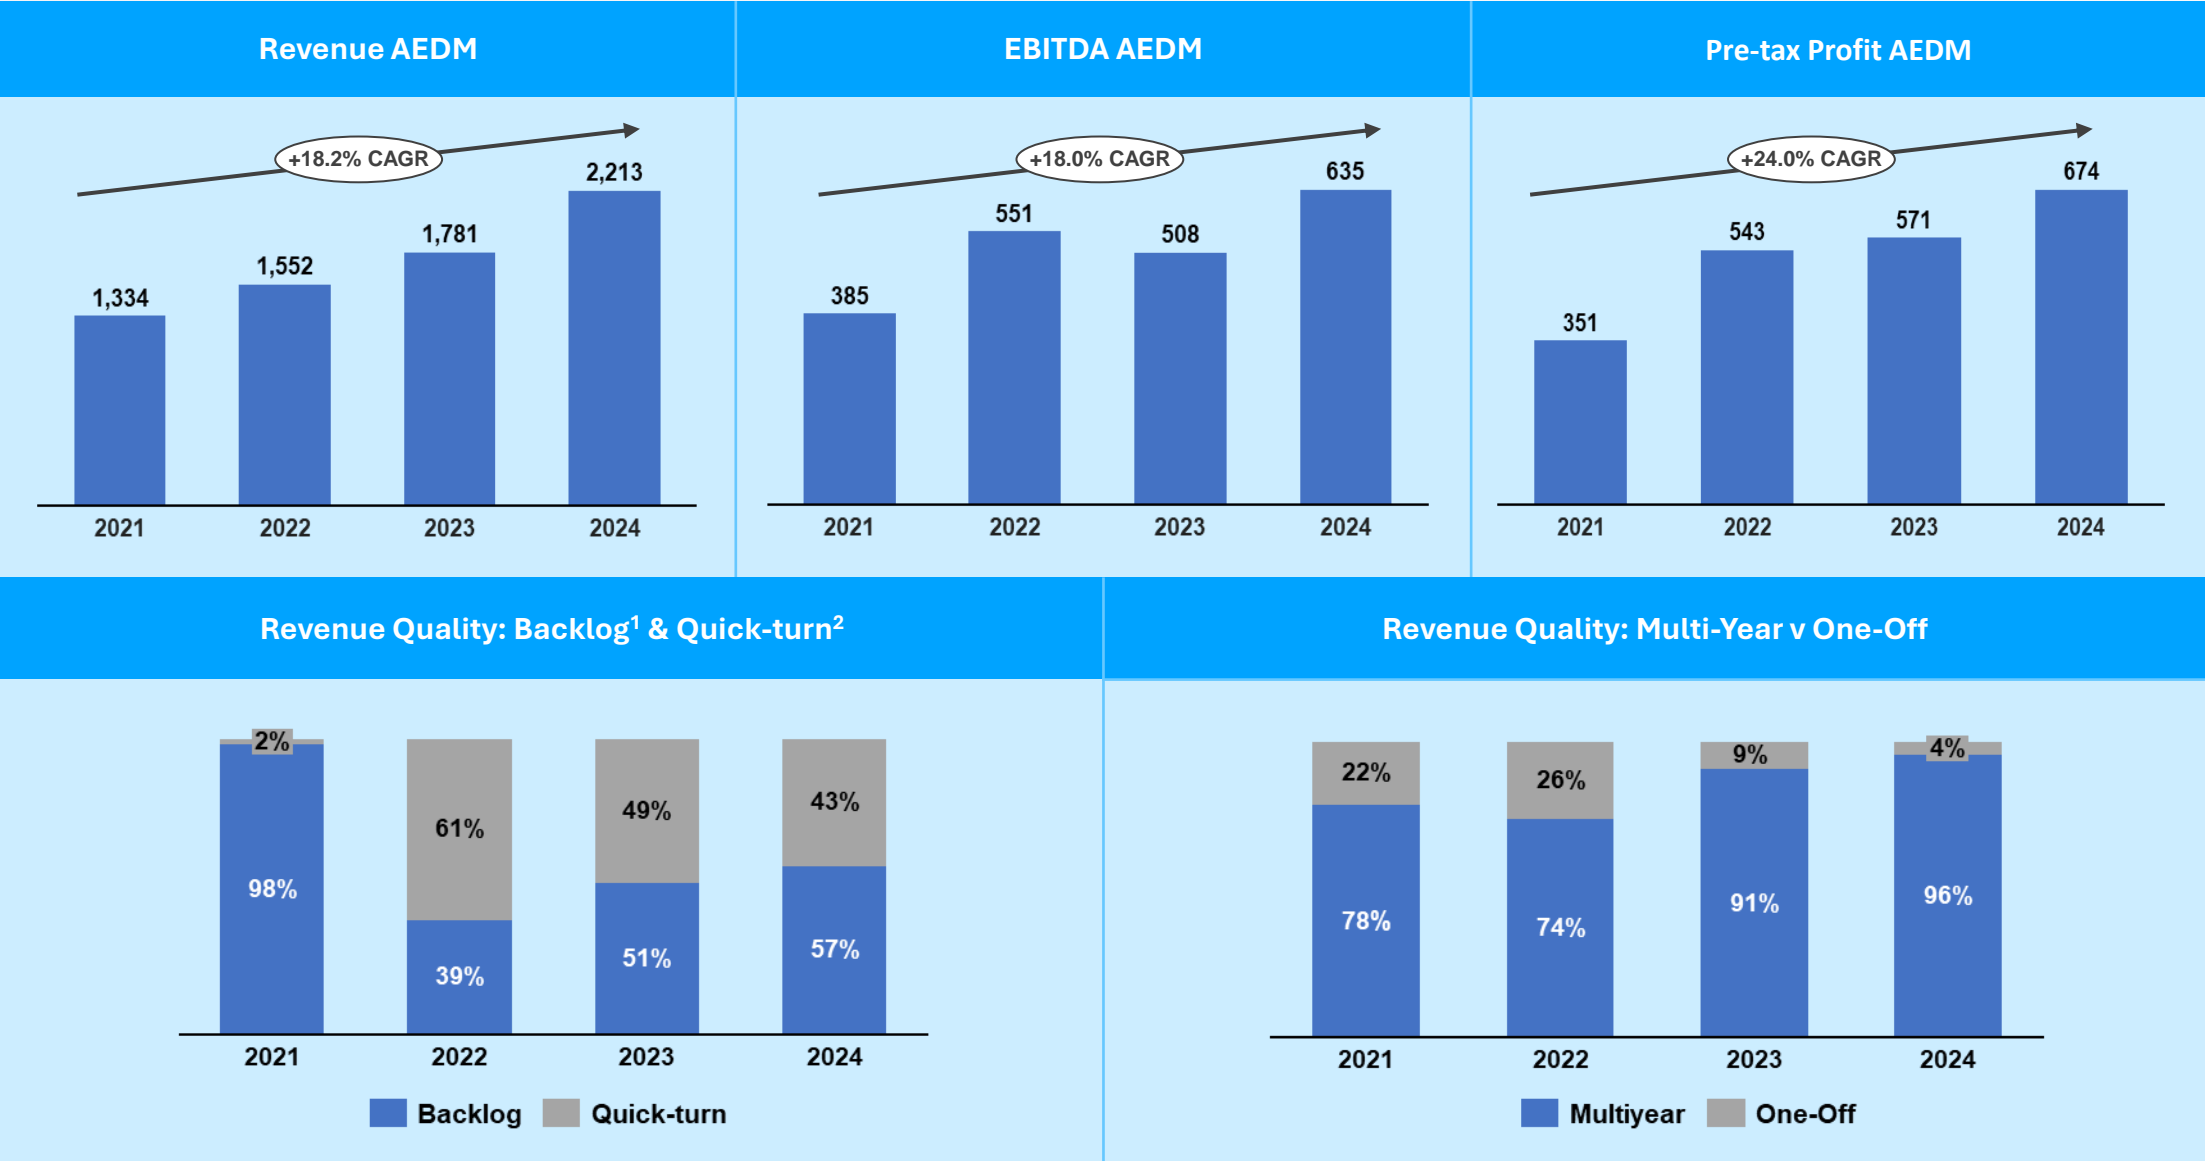

PRODUCTION GROWTH			EFFICIENCY GAINS			SUSTAINABILITY & SAFETY	
<ul style="list-style-type: none"> Uncertainty reduction by enhancing interpretation process Decisions based on robust scientific optimization 			<ul style="list-style-type: none"> Operations and energy optimization Predictive maintenance & asset integrity 			<ul style="list-style-type: none"> Automated HSE monitoring Emissions monitoring & forecasting

Financial Framework

Financial Dashboard: 2021-2024

¹ Revenue from Backlog implies revenues from contracts concluded in prior financial years ² Revenue from Quick turn implies revenues from contracts concluded in the current financial year

Financial Dashboard: 2022-2024

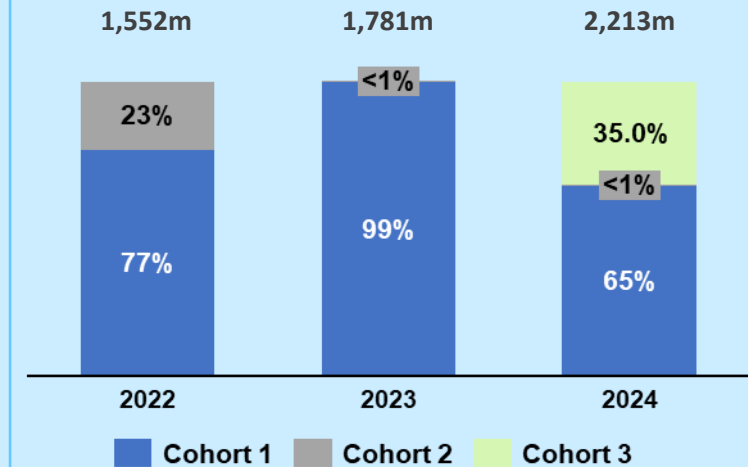

Revenue Diversification: Domestic & International

Revenue Visibility: Backlog¹ Evolution

Revenue Repeatability: Client Cohort

¹ Backlog implies revenues yet to be accrued on contracts concluded in prior periods

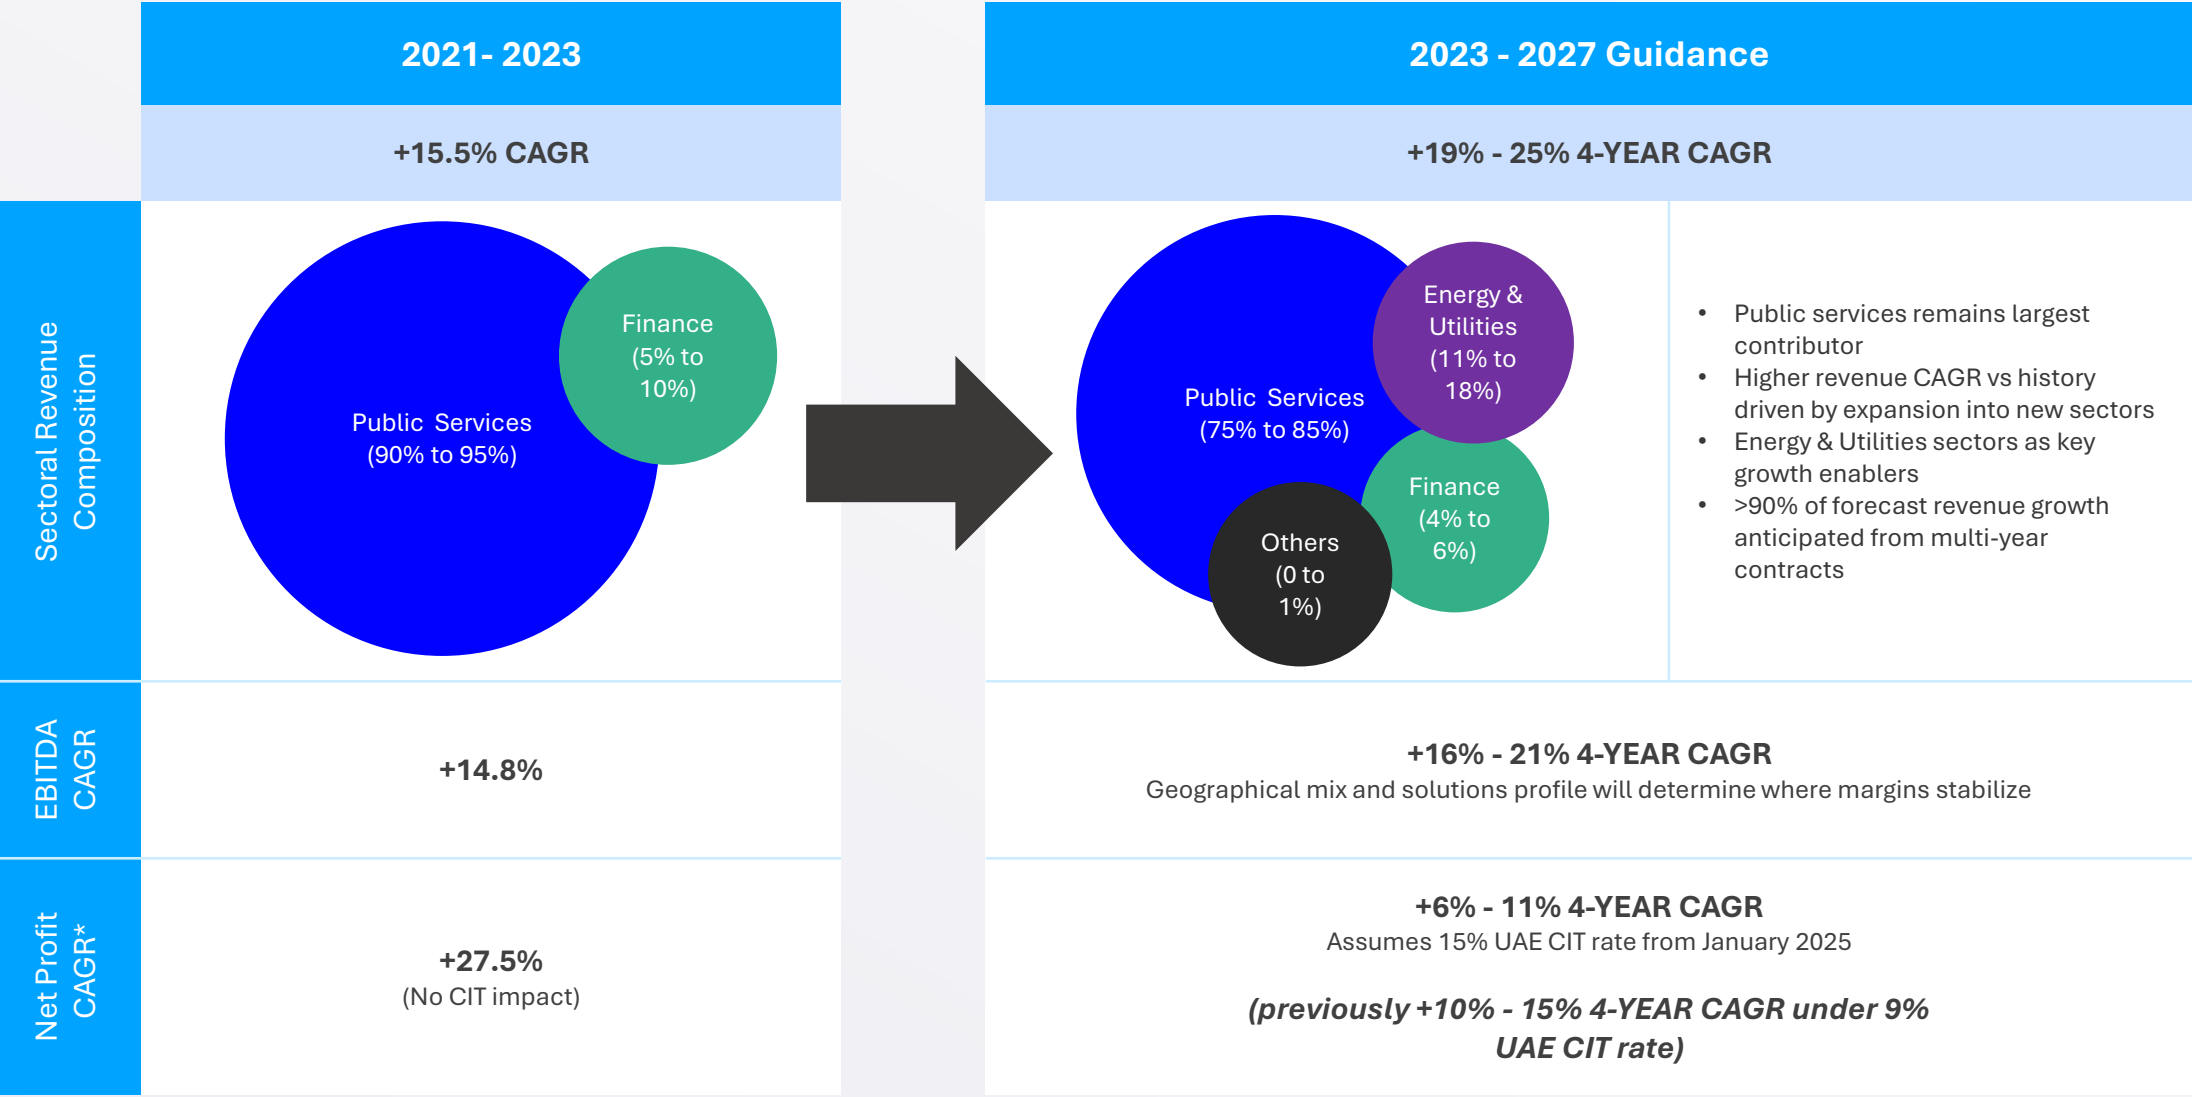

Cash Flow & Balance Sheet

Cash Flow	2024	2-YR Growth
EBITDA (AEDm)	635.4m	+15.4%
Net Operating Cashflow (AEDm)	1,156.2m	+54.3%
Cashflow Conversion (%) ¹	182.0%	+46.0%
Free Cash Flow per Share (AED)	0.20	+48.2%

Balance Sheet	2024
Debt to Equity (%)	0.0%
Current Ratio (x)	2.86x
Cash Ratio ² (x)	1.46x
Liabilities to Assets (%)	26.4%

¹ Calculated as Net Operating Cashflow / EBITDA ² Calculated as Cash / Current Liabilities

Medium-Term Guidance

* 100% Group profit including minorities

Why Presight Leads

1	We are standing on the shoulders of giants	<ul style="list-style-type: none">• UAE backing as trusted enabler of digital transformation in Global South• Access to G42 ecosystem & global technology partnerships to scale digital transformation
2	Our technological capability drives sustainable advantage	<ul style="list-style-type: none">• Mission-critical programs that help shape fast-growth economies & empower societies• Proprietary platform: tech adaptive, all-source data, scales to any load• AI models developed & trained on an industrial scale
3	Our solutions provide tangible, long-term benefits for our clients	<ul style="list-style-type: none">• Trusted B2G relationships based on proven ability to deliver mission critical solutions• Bespoke technology stacks that supports faster, lower-cost adoption of AI• Continual technology evolution to further entrench our offering• Solutions that cover the entire lifecycle of data analytics and AI deployment
4	Our business model is highly scalable	<ul style="list-style-type: none">• Large addressable markets with structural demand drivers & significant TAM• Solutions that address key challenges in emerging markets• New enterprise offering to support large-scale deployment of GAI technology• Capex-light model & robust controls facilitate low-risk international expansion
5	Our economics are industry leading	<ul style="list-style-type: none">• Dependable revenues & cash flows with growing backlog & multi-year contracts• Consistent & strong profitability• Robust, debt-free balance sheet to fuel future growth• Strong medium-term revenue and profit CAGR trajectory

Our Products & Solutions

Presight Core Solutions

VITRUVIAN

Vitruvian Intelligent Platform is natural language interaction driven and focused on enterprise dataset and industrial workflows. It adopts generative AI as technology foundation to transform every aspect of traditional information collection, data analysis, insight discovery and case investigation.

VANTAGE

An integrated data management product that interprets raw data sources into domain-specific analytics, leveraging predictive models that create insights and recommendations for decision makers.

ISO certified by ISO/IEC
- ISO 9001:2015 - (QMS)
- ISO 14001:2015 - (EMS)
- ISO 45001:2018 - (OHSMS)

VIDEO ANALYTICS

Powerful video analytics platform that leverages our growing AI library to integrate fragmented standalone video management systems into a single platform.

ISO certified by ISO/IEC
- ISO 9001:2015 - (QMS)
- ISO 14001:2015 - (EMS)
- ISO 45001:2018 - (OHSMS)

AI CITY PLATFORM

Our AI city platform optimizes urban operations using AI, integrating data from various sources to enhance transportation, energy, water management, and public safety, creating a smarter, more efficient city.

FINANCIAL ANALYTICS

A universal AI-enhanced financial analytics platform that provides for real-time, end-to-end fraud detection, risk management, security, and compliance management solutions to financial institutions of all sizes throughout the globe.

The Smart Grid solution revolutionize electricity and gas network with the use of AI to improve energy efficiency and reduce financial losses during energy transport.

Presight Enterprise AI Suite

Solutions that use Generative AI to drive business value. Leveraging machine learning, natural language processing and predictive analytics, the Enterprise AI suite integrates your tech stack, deep learning and computer vision – on-premise or on cloud

Presight Vitruvian

An on-premise, AI platform that is capable of managing large-scale information, learning from trusted organization data and systems to provide deep business insights and new perspectives. Vitruvian enables enterprises of any scale to use leading AI tools for an intuitive understanding of their business across a diverse set of use-cases and verticals

Presight Datahub

Presight Datahub is your ultimate solution to transform scattered data into strategic value. Powered by Microsoft Azure, it enables organizations to create, share, and monetize data products effortlessly while maintaining full sovereignty over their data.

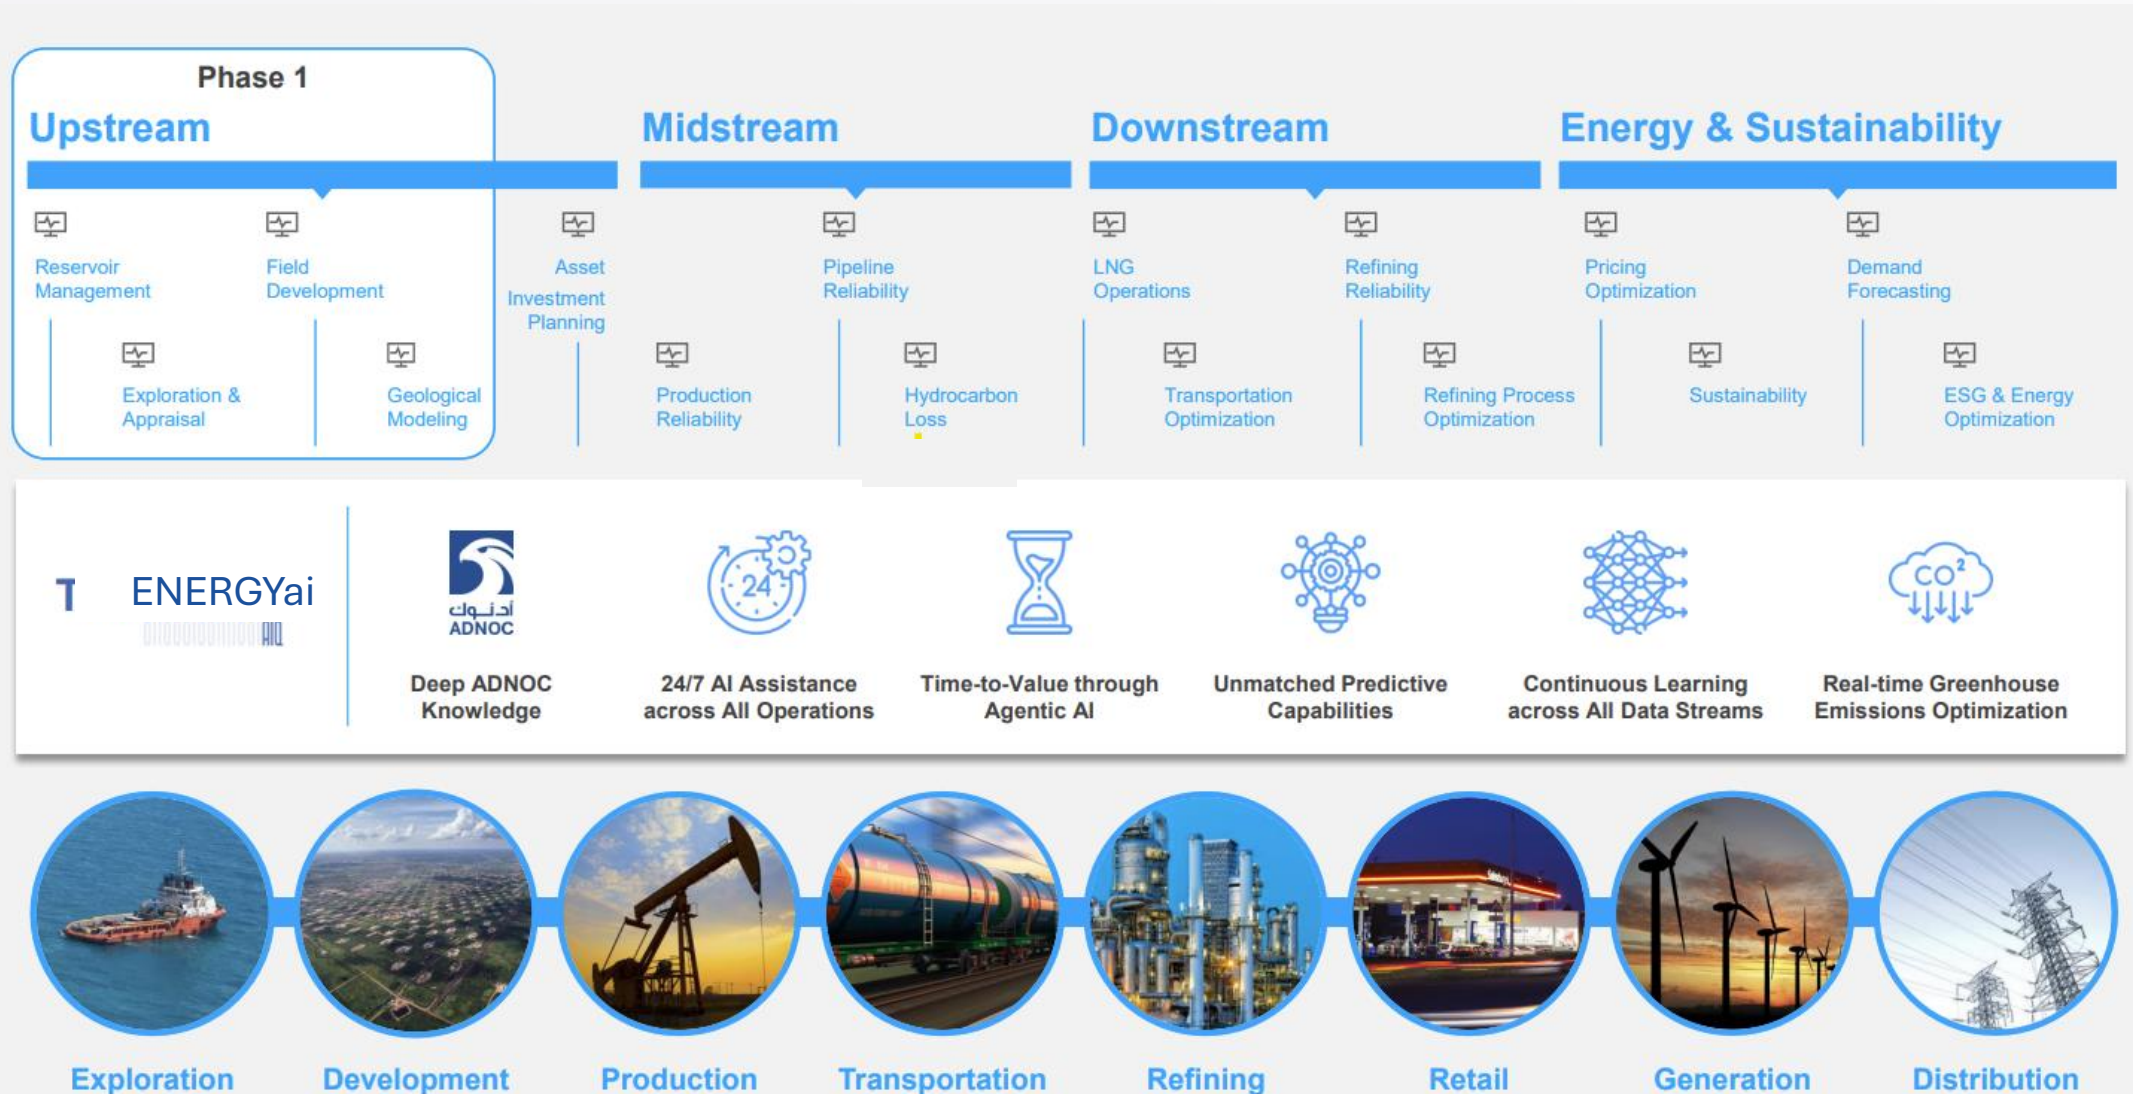

Presight Report Optimizer (PRO)

Presight Report Optimizer (PRO) is a revolutionary no-code report generator that uses generative AI and Large Language Models (LLMs) to autonomously analyze data, perform tasks, and deliver actionable insights, enabling enterprises to make quick, informed decisions.

ENERGYai: Enablement across Full Energy Value Chain

ENERGYai to be the foundation Energy GPT for ADNOC, operating on top of underlying HPC and Data Infrastructure

Presight Intelli Platform: AI Enabled Smart Infrastructure

Integrating AI, IoT, and Big Data to revolutionize urban living conditions for existing and new cities

Presight Intelli AI (connecting a world of infrastructure diversity, critical data and applications)

Intelli Advantages

- Industry leadership integration
- Unrivalled scalability price point
- No compromise cloud and on-prem
- Infused Gen AI at the platform core
- No-coding environment agility
- Open agnostic data framework
- Multi-industry adaptability
- Resilient platform by design

More Intelli Use Cases

Airports

Ports and Logistics

Manufacturing

Oil and Gas, Energy

Presight Synergy

Enterprise-grade data and AI platform designed to unify data management, AI analytics, and business intelligence

Unify, cleanse, and govern all your data sources in one place, data profiling, data catalog management

Synergy Data

AI-assisted data pipelines, data lakehouse integration, federated query, graphical data exploration tools

LLM integrated, generative AI embedded capabilities, agentic AI framework to build AI agents seamlessly

Synergy AI

150 + AI/ML model registry to utilize for different use cases such as computer vision and natural language processing

Built-in BI analytics tool, AI-powered rule engine, interactive and customizable dashboards, alerts & scheduled tasks

Synergy BI

Global search, mass profiling, graph knowledge, geo analysis, geo coding, report management, rule engine analytical tool

Security and Governance

Team collaboration tool, personalized home dashboard, hierarchical content organization, content sharing, activity log tracker, notifications management

Fine-grained ACL for all users, row level access control, classification-based access, audit trail, real time operational and performance statistics

Platform monitoring dashboards, data ingestion monitoring dashboards, query execution transparency, Keycloak-enabled, OAuth and SSO authentication

Our AI Library Powers Industry Verticals

The core of the TAQ platform is our 'All-Source Data Interpretation and Analytics' and 'AI & Big Data' layer

It hosts 100+ AI algorithms in text analytics, multimedia analytics, and behavior analytics that power the verticals' solutions and range from automation, anomaly detection to advanced analytics

Across each of our core business verticals, these capabilities are purposed and customized to solve complex business challenges

Solution Verticals

Ready-made proprietary components that are commonly and heavily used on top of all AI Analytics platforms

AI Library

100+ state-of-the-art machine learning and deep learning models, running algorithms tailored to industry specific needs

Big Data Analytics

Multi-purpose AI Analytics Platforms that are capable to ingest and process any size and type of data

100+ machine learning models in NLP, multimedia, prediction, and behavior analytics AI

Stakeholder Overview

Domestic and International Customer Relationships

Presight serves leading organizations to create impact at scale, driving rapid improvements in the analytics quotient for each of its clients

Global Collaborations / Joint Ventures / Partnerships / MOUs

Our joint ventures and partnerships add value to the work we do, foster growth, and bring about positive societal impact across the world

Joint Ventures

To harness advanced AI-driven data analytics, combining AIQ's expertise in big data with Presight's AI solutions to drive insights and decision-making for clients.

A joint venture with IHC-owned Esyasoft, IntelliGrid aims to optimize resource use, improve operational efficiency, and support sustainable development.

Presight and TOTM Technologies Limited for the development and deployment of their combined proprietary technologies

To explore the development of high-performance computing capacity in Kazakhstan, develop enterprise AI solutions, including a sovereign GPT and Kazakh LLM

Partnerships & MOUs

To leverage cutting-edge infrastructure solutions and accelerate artificial intelligence (AI) and big data adoption in the UAE.

Aimed at accelerating applied AI projects and developing cutting-edge AI solutions in the Middle East.

To enable large-scale deployment of generative AI technology and reinforce UAE's position on the AI centerstage.

Aimed at spearheading and enhancing the digital transformation of government and businesses across the Kingdom of Saudi Arabia and the MENA region.

Aims to develop and promote AI-driven initiatives to enhance Emirati workforce competitiveness by fostering digital skills and creating job opportunities in the AI and tech sectors.

For the application of AI in Advanced Data Management today to develop statistical registers for vital demographic data of Abu Dhabi's citizens and residents.

Focuses on collaborating to develop advanced AI-driven solutions for industries such as energy, logistics, and infrastructure, leveraging both companies' expertise to drive innovation and efficiency.

Aims to collaborate on delivering advanced AI and data analytics solutions, combining NEC's technology expertise with Presight's AI capabilities to drive innovation and efficiency across various sectors.

Enables us to work together on transformative projects in the areas of Smart City and Safe City initiatives.

Focuses on fostering innovation and entrepreneurship by leveraging AI-driven technologies to support startups and accelerate digital transformation in Kazakhstan.

Board of Directors

**H.E. Dr. Sultan
Ahmed Al Jaber**
Chairman

- Minister of Industry & Advanced Technology of the UAE
- Chairman of Masdar
- Managing Director & Group CEO at ADNOC
- Over 20 years of experience across the energy spectrum
- Played a leading role in the UAE's energy diversification

**H.E. Mansoor
Al Mansoori**
Vice Chairman

- Member of Abu Dhabi Executive Council
- Chairman of the Department of Health in Abu Dhabi
- Prominent leader with diverse professional experiences in senior leadership positions across government and private sectors

**Kiril
Evtimov**
Board Member

- Group CTO at G42 and CEO of Core42
- Co-founder, board member, and former CEO of FairSignals Inc.
- Previously held leadership roles in Teradata, MicroStrategy, and eBay
- Seasoned technology and business leader with global experience across start-ups and Fortune 500 companies

**Abdulla Rashed
Alrashdi**
Board Member

- CEO of Tamouh Healthcare
- Successfully led Tamouh Healthcare's efforts to monitor and curb the Covid pandemic
- Extensive executive experience in various official entities, including Abu Dhabi Police General Headquarters, Abu Dhabi Authority of Culture and Heritage, and the Federal Government

**Suhail Bin
Tarraf**
Board Member

- Group Chief Operating Officer at First Abu Dhabi Bank (FAB)
- Former Chief Operating Officer at Emirates Islamic Bank
- Performance-driven transformative leader with over 20 years of senior expertise in Strategy, Operations, Technology, and Human Resources

**Hamda
Almheiri**
Board Member

- Director, leading the Government Affairs function for ADQ, an Abu Dhabi-based investment and holding company
- Holds authority over ADQ's collaboration with industry advocates, leveraging areas of joint interest
- Oversees the continuous monitoring of relevant government activities globally

**Thomas
Pramotedham**
Board Member and CEO

- Technology and business leader with over 22 years of experience
- Held multiple CEO positions driving large-scale digital transformation
- Spearheads expansion of the company in Middle East, Central Asia and Africa

Management Team

Thomas Pramotedham

Chief Executive Officer

- Technology and business leader with over 22 years of experience
- Held multiple CEO positions driving large-scale digital transformation
- Spearheads expansion of the company in Middle East, Central Asia and Africa

Ram Meyoor

Chief Financial Officer

- Over 25 years of finance experience across MENA, Asia and USA
- Holds MBA from Illinois State University, Illinois, USA
- Leads the company's finance department and is responsible for all financial functions including growth, governance, and compliance

Dr Adel Alsharji

Chief Operating Officer

- Responsible for company operations, with over 25 years of experience
- Expertise and in-depth knowledge of AML, auditing, and anti-corruption, focused on developing and delivering technology-driven financial AI products and solutions
- Previously worked in civil services and has a doctorate in business administration

Xiaodong Zhou

Chief Technology Officer

- Over 17 years experience in technology, started as an applied data scientist
- Visionary strategist specialized in developing future-proof technology roadmaps
- Develops the company's technology and AI products

Use Cases

Expo 2020 Dubai

Provision of AI-enabled Visitor Management technology for EXPO 2020 monitoring over 100,000+ daily visitors and 6,500+ daily vehicles

 AI analytics & alerts within milliseconds

 Track and trace

 Identify and prevent thousands of incidents

Systems	Video Analytics	Screening Services	Vehicle Access Management
	A cloud-based video analytics platform that utilized advanced AI to provide real-time insights and situation analysis and connect with operations and security teams	Utilized x-rays tray return systems, metal detectors and electronic trace detectors to prevent entry of forbidden items	Secured all entry and exit points through VAM, utilizing intelligent automation and management of car access and parking operations

Threat AI-alert dashboard, tracking alarms and associated actions

- 12,000 CCTV cameras covering an area of 4.38 square kilometers
- 240 License Plate Recognition Devices
- 158 Auto Arm Barriers
- 78 Driver ID Devices
- 2,400 Tracking Devices
- 137 Metal Detectors
- 130 X-ray Machines
- 4 E-tracer Detectors

Lifesaver

A GenAI-powered emergency response management platform

SOCAR - AzeriGas

Presight piloted with the Azerbaijan Electricity and Gas Distribution Company an Advanced Metering Infrastructure (AMI) along with a Meter Data Management System (MDMS) with Analytics Project for the modernization of their metering infrastructure

Faster identification of dead meters and disconnections

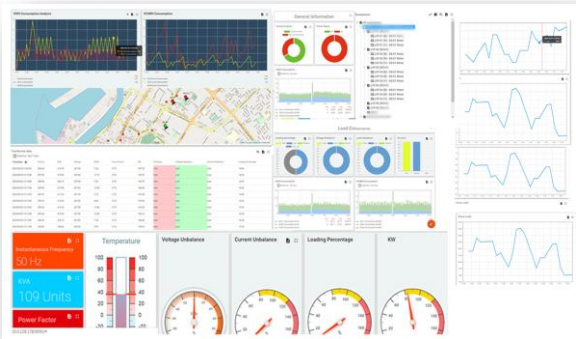

Increased revenue through commercial and technical loss reduction

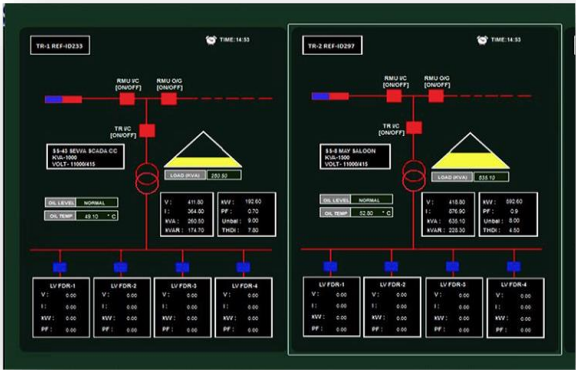

Improved distribution management

	AMI	MDMS	Control Center
Systems			
Use Case	Manage demand side & integrate decentralized generation	Deliver information to clients near real-time to improve services & influence behaviour	Deliver status information to support grid & network operations
Outcome	<ul style="list-style-type: none">Immediate outage detection & reliable restorationTransparency of unused/rare network capacityImproved network monitoring & loss detection	<ul style="list-style-type: none">Accurate Data feedsData on timeMeter outage detection	<ul style="list-style-type: none">Create transparency of power/water demandSubstantially more customer infoSufficient information on consumption & cost

Faster identification of dead meters and disconnections

Remote Monitoring Solution for the Smart Meter Command Center

Abu Dhabi Accountability Authority (ADAA)

Supported ADAA with multiple AI platforms to achieve their objective of driving accountability, transparency, and integrity across Abu Dhabi government entities

10x efficiency

Audit execution cycle reduced by 10x e.g., process visualization from data ingestion to dashboard reduced from 15 days to 1.5 days

Comprehensiveness

Typical audit samples are less than 1% of all records, AI models enable auditing of 100% of records

Systems	Use Case		
	AI Audit	Anti- corruption	Financial Disclosure System
	Ran end-to-end artificial intelligence audits of over 100 use cases across HR, procurement, and finance across 30+ entities	Ran conflict of interest big data models to detect a variety of conflict-of- interest use cases (e.g., related party financial transactions and family member hiring)	Supported the platform to set a clear foundation for institutional transparency by recording self-disclosed data for 1,500+ government seniors across 11 data categories (job, family, bank, and others)

AI audit summary output with a consolidated entity score

Anti-corruption investigation network-analysis dashboard

APPENDIX

Our Markets

CORE

Public Services

WHAT WE DO

We revolutionize public services and government operations with GenAI-powered big data analytics

WHY WE DO IT

To enable public agencies to improve citizen service offerings, define data-driven policies, enhance public safety, and enable digital identity management

OUR IMPACT

So that people can have better citizen experiences and live better lives

Energy & Utilities

WHAT WE DO

We develop advanced AI solutions for the Energy sector and mitigate the environmental impact of business operations

WHY WE DO IT

To provide comprehensive AI-based tools and insights that enhance operation efficiency, reduce environmental impact, and support effective decision-making

OUR IMPACT

So that we can boost operational efficiency, sustainability, and data-driven decision making

Finance

WHAT WE DO

Our solutions help detect financial irregularities, fraud, and risks precisely through GenAI-driven big data analytics

WHY WE DO IT

To equip regulators and companies with tools to detect and address financial anomalies, analyze trends, and run audits

OUR IMPACT

So that financial risk can be managed, allowing people and organizations to be at peace

Smart Cities

WHAT WE DO

Our comprehensive solutions revolutionize how cities are managed.

WHY WE DO IT

To enable authorities with the capabilities to enhance city resource management, leverage IOT and sensors to improve community services

OUR IMPACT

So that urban life becomes an enabler for advancement without taxing the environment

Education

WHAT WE DO

Transform educational outcomes by using big data analytics powered by AI

WHY WE DO IT

To equip authorities and institutions with data-driven tools to enhance student learning successes, identify student talents, and optimize learning programs

OUR IMPACT

So that students can learn better and contribute more quickly and effectively to economic and societal progress

Public Services

We enhance public services and optimize government efficiencies through big data analytics powered by GenAI. Our mission critical and proven GenAI solutions enable public agencies to improve citizen service offerings, define data-driven policies, enhance public safety, and enable digital identity management

What we offer

1	Digitization of public security operations Presight offers anomaly detection, threat detection, alert & notification, target identification and prediction & prevention services
2	Digitization of the citizen Presight deploys e-government services and analytics to better serve the needs of citizens
3	Digitization of urban planning Presight uses advanced big data analytics to drive efficiency and cost savings for urban planning
4	Automation of teamwork management Presight provides case management, BI & dashboards, reporting and permission & classification services

Energy & Utilities

Using big data analytics powered by GenAI, we empower the energy sector with advanced GenAI solutions to improve decision-making and drive efficiency, and help organizations identify, manage, and predict the environmental impact of their business activities

What we offer

1	Driving Operational Efficiency Leveraging world-class industry knowledge and experience, and organizing operational data through AI-based tools, Presight has a portfolio of powerful solutions to support industry players enhance the pace and efficiency of operations
2	Reduce Environmental Impact Presight's Energy Solution enables companies in the Oil and Gas sector and beyond to utilize data-driven analysis, computation, and modeling to power better operational decision-making and evolve towards a sustainable future
3	Data-driven Decision Making As the era of easy oil declines, the volume and complexity of Oil and Gas operations is increasing. Correspondingly, accurate and effective decision-making and planning are becoming critical
4	Deep Sector Understanding We understand the Energy sector's dilemma of balancing growth with HSE, sustainability, and other goals. Our Energy Solutions helps clients to perform better, protect teams and equipment, keep operations sustainable, and rapidly scale successes

Finance

Our expertise helps equip regulatory authorities and institutions with the tools to identify and address financial anomalies, fraud, and risks using big data analytics powered by GenAI. Our solutions ensure integrity and security in financial transactions and operations

What we offer

1	Growing use of Data Analytics and AI Presight has a proven and strong track record in developing AI solutions in this segment
2	Migration to cloud Presight offers secure cloud services through G42 ecosystem
3	Automation and digitization of banking services Presight offers eKYC, alternate credit scoring, AML and CTF services
4	Rising cost of compliance Economy of scale applies as Presight can leverage on inhouse technology stack to create solutions

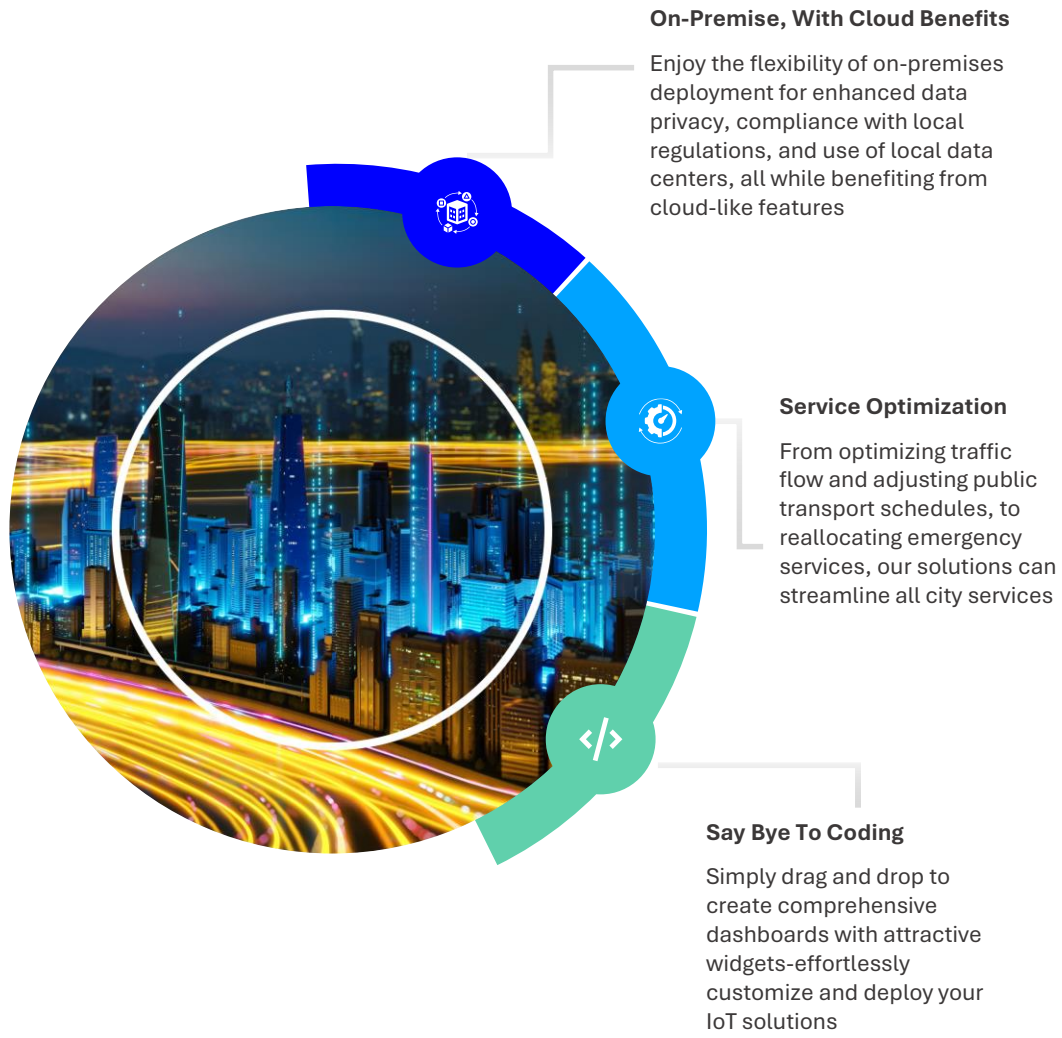

Smart Cities

Our solutions transform cities into smart cities by integrating IoT (Internet of Things) technologies for efficient transportation, waste management, energy usage, and public safety

What we offer

1	Flexible and Adaptable Flexible solutions can be adapted to any need of a modern city and its infrastructure. Highly scalable without disruption or major upgrades, from village to megacity deployment
2	Exceeds Industry Standards Solutions are based on world leading AI & GenAI technology and validated by top global technology brands
3	On-Premise, With Cloud Benefits Enjoy the flexibility of on-premises deployment for enhanced data privacy, compliance with local regulations, and use of local data centers, all while benefiting from cloud-like features
4	Data Agnostic and GenAI Engineered Delivering on-premise advanced cutting-edge AI and GPT functions with complete local control and security using all source data

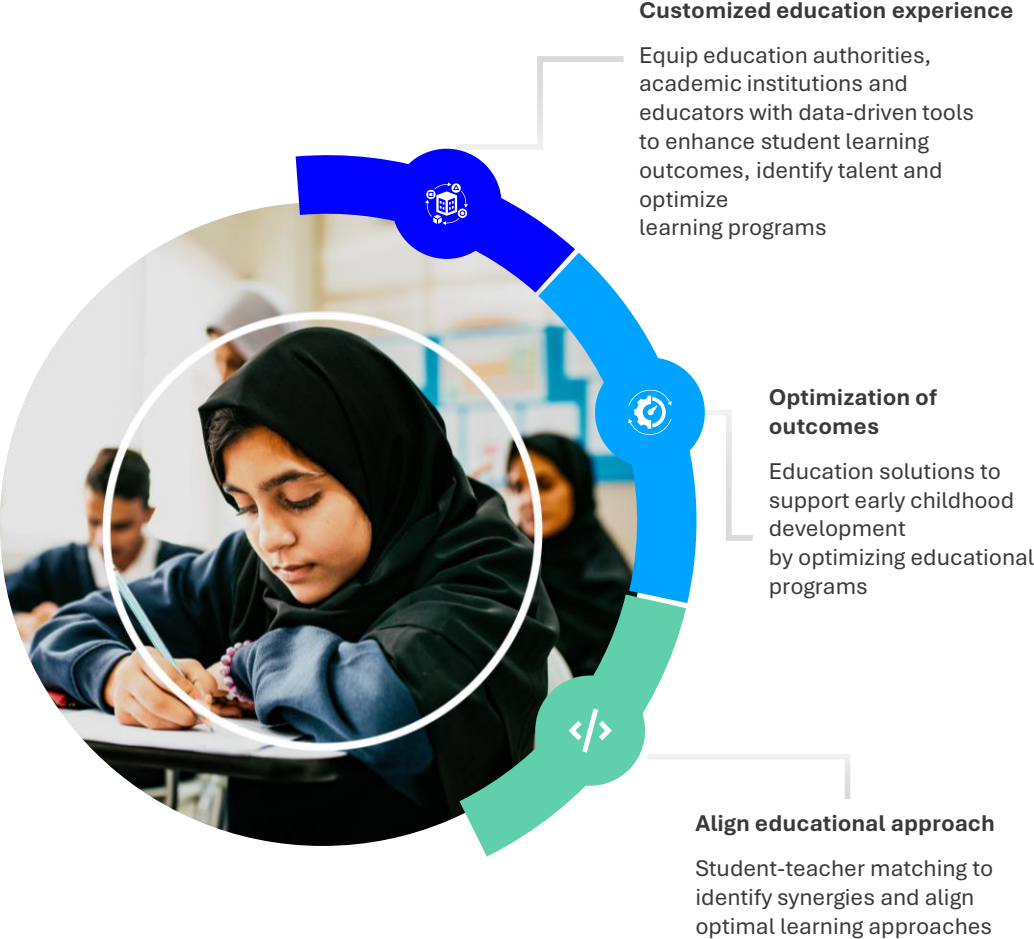

Education

Our solutions transform educational outcomes by using big data analytics powered by generative AI

What we offer

1	Use of AI for education experience customization Presight uses AI analytics to highly customize the education journey, for example, more accurate diagnostics of student skills, tailored learning paths
2	Digitalization of education Provide a rich data and AI experience in education, enabling personalized & purpose-built education products
3	Growing demand for remote learning post COVID AI driven tools to strengthen educational outcomes in remote learning environment
4	Identification of gaps in teachers' performance Actionable feedback on the success and gaps of each lesson to improve outcome

AIQ

Acquisition of 51% stake in AIQ

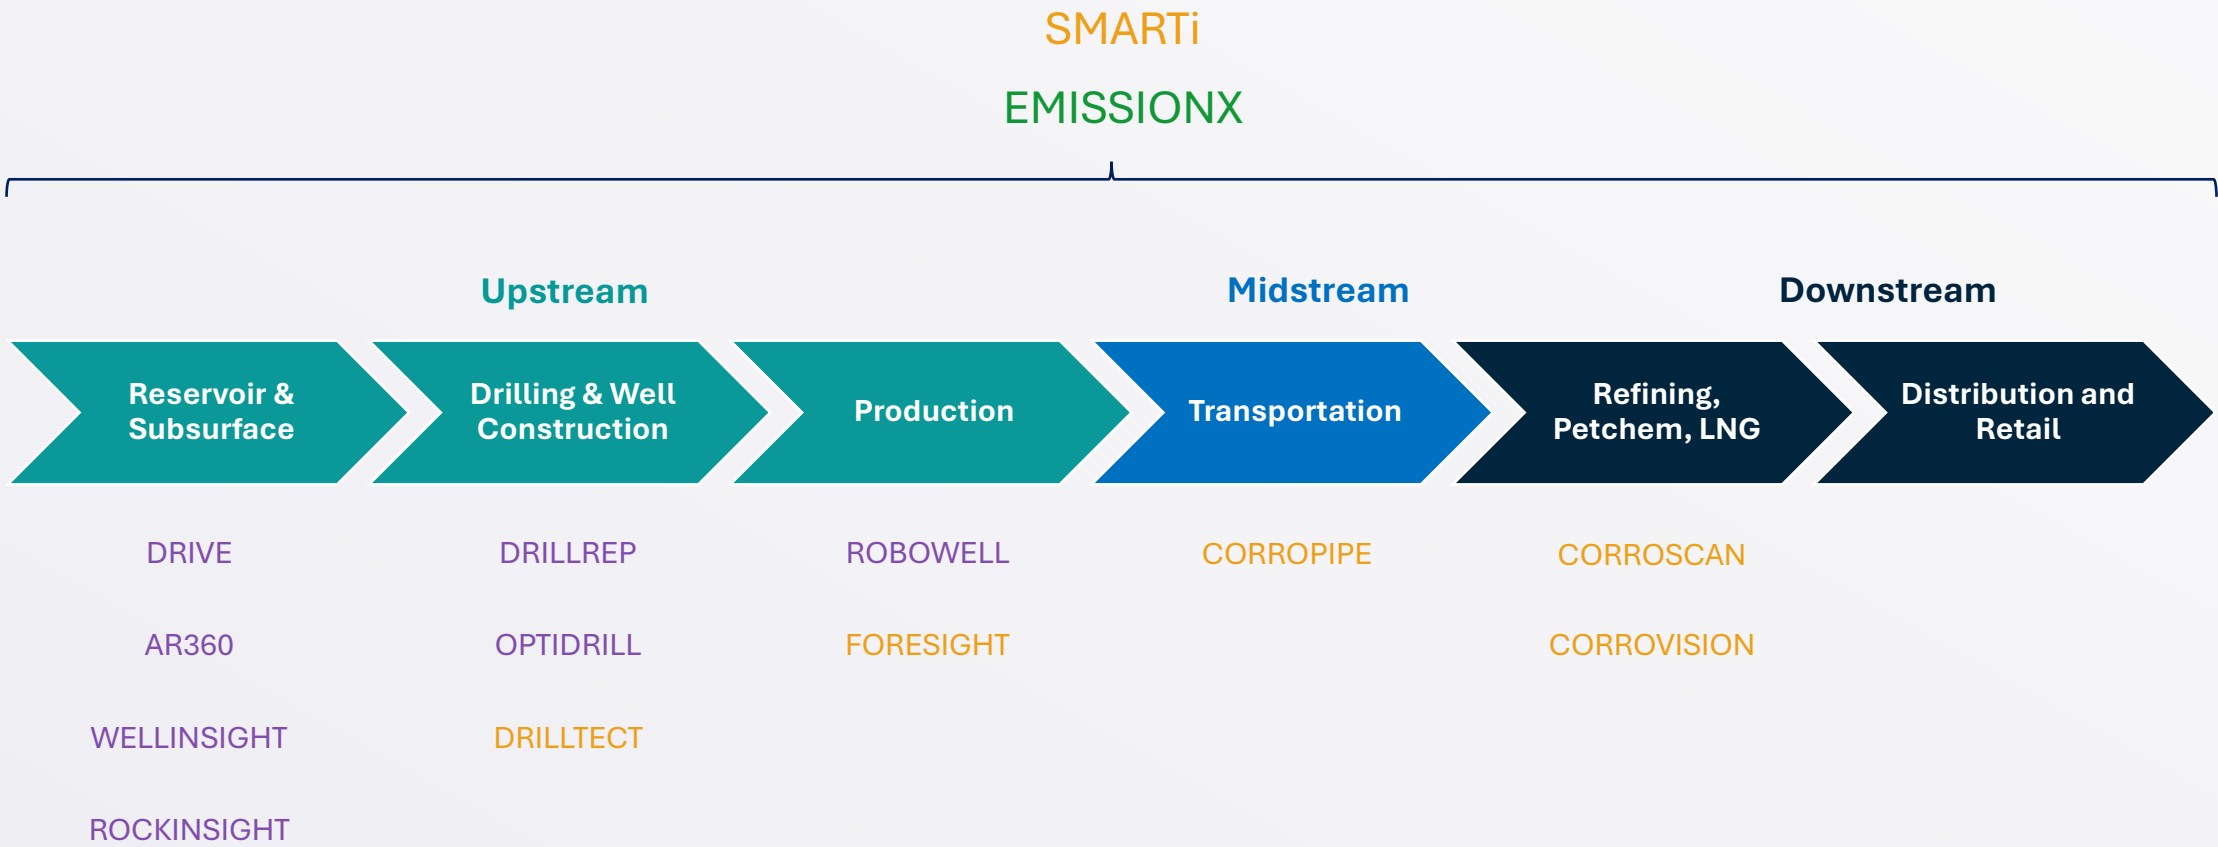

Acquisition of a best-in-class AI-energy company backed by a leading National Oil Company

Transaction Overview	<ul style="list-style-type: none">• Acquisition of 51% of AIQ from G42• ADNOC retains 49% share and becomes 4% shareholder in Presight• H.E. Dr. Sultan Al Jaber as AIQ Chairman
Overview of AIQ	<ul style="list-style-type: none">• Leading provider of AI solutions in energy sector• Integral to ADNOC's \$500 million value creation from AI solutions in 2023• Over 20 proven, cutting-edge AI applications with broad applicability upstream and downstream• Industry-leading growth and profitability
Acquisition Rationale	<ul style="list-style-type: none">• Pivotal role in global transition towards a smarter, sustainable energy future• Partner with ADNOC's future digital transformation initiatives• Leverage AIQ solutions & Presight capabilities across growing international footprint• Significant value generation opportunity for all stakeholders
Market Overview	<ul style="list-style-type: none">• Market for AI energy solutions estimated at \$13 billion by 2034; 14% CAGR 2024 - 2034*• Increase efficiency, accuracy, work safety /access remote areas / electrification and sustainability / digitalization
	Under Presight's ownership, AIQ is expected to deliver enhanced value for all stakeholders

AIQ's Portfolio Covers the Full Value Chain of Energy Companies

Key Features of Main AIQ Offerings

Proven, trusted solutions that help drive efficiency and deliver value in broad operational scenarios

<div>AR360</div> <div>PERFORM WITH AIQ</div>	<ul style="list-style-type: none">• Provides a comprehensive overview of reservoir management and production optimization• Utilizes automated processes to assess reservoir model quality and optimize recovery factors• Employs machine learning and physics for real-time production forecasting, significantly reducing scenario analysis time
<div>DRIVE</div> <div>PERFORM WITH AIQ</div>	<ul style="list-style-type: none">• Replaces traditional reservoir simulators with AI-powered meta-models, allowing for rapid assessment of multiple field development scenarios• Highly integrates and automates quality checks and scenario rankings, enhancing the decision-making process in field development planning
<div>ROBOWELL</div> <div>PERFORM WITH AIQ</div>	<ul style="list-style-type: none">• Utilizes APC for real-time optimization of well parameters, reducing the need for manual supervision and enhancing operational safety• Initially focused on a limited number of wells with plans to expand control to cluster/field levels, offering a broader operational scope
<div>FORESIGHT</div> <div>PROTECT WITH AIQ</div>	<ul style="list-style-type: none">• Combines statistical, physics-based, and AI methodologies to predict failures in electrical submersible pumps• Seamlessly integrates with existing monitoring systems and data sources• Enhances proactive maintenance planning

Governance Framework

Comprehensive Governance Structure

Committed to the highest level of governance standards in line with international best practice

Presight AI Holding PLC Board of Directors

Responsible for preserving and enhancing Presight’s long-term value for stakeholders

Audit & Risk Committee ("ARC")	Nomination & Remuneration Committee ("NRC")	Investment & Financial Committee ("IFC")
<p>Oversight of the integrity of the Company’s internal control framework, including integrity of the Company’s financial reporting, processes, policies and controls, the internal audit function and the external auditor</p> <p>Additionally, oversight of the Company's material risk exposures, risk management framework, adherence to the risk appetite set by the Board and behavioral based risk initiatives to drive risk leadership</p>	<p>Supports the Board with the Board composition, renewal, performance and Board-relegated governance matters</p> <p>Includes the remuneration and benefit strategies for senior executives, the implementation of the Emiratization plan, the methodology used to address staff performance and corporate salary and grading structures</p>	<p>Oversight of the Company’s investment transactions, investment risk management exposure policies and guidelines</p> <p>Includes review of investment manager selection</p>

Integrity Due-Diligence Process

Minimizing potential exposure to reputational, sanctions, or legal risk

Presight manages the risks by applying the following:

Presight adheres to a stringent framework for integrity Due Diligence (DD) and direction on the mandatory activities required to screen a potential or existing counterparty for reputational and regulatory risks

DD is the independent information gathering and expertise that assesses the integrity-related risks that a counterparty carries so Presight can make informed risk-based decisions on the third parties it does business with

Mitigation measures are put in place to minimize potential exposure to reputational, sanctions, or legal risk

Risk Based Integrated Processes
